## Forward-Looking Statements

This Quarterly Report contains “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, which involve risks and uncertainties. All statements other than statements of historical facts contained in this Quarterly Report, including statements regarding our strategy, future operations, future financial position, future revenue, projected costs, prospects, plans, objectives of management, and expected market growth are forward-looking statements. These forward-looking statements are contained principally in the sections entitled “Risk Factors” and “Use of Proceeds.” Without limiting the generality of the preceding sentence, any time we use the words “expects,” “intends,” “will,” “anticipates,” “believes,” “confident,” “continue,” “propose,” “seeks,” “could,” “may,” “should,” “estimates,” “forecasts,” “might,” “goals,” “objectives,” “targets,” “planned,” “projects,” and, in each case, their negative or other various or comparable terminology and similar expressions, we intend to clearly express that the information deals with possible future events and is forward-looking in nature. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. For TeraWulf, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include, without limitation:

- conditions in the cryptocurrency mining industry, including any prolonged substantial reduction in cryptocurrency prices, which could cause a decline in the demand for TeraWulf’s services;
- competition among the various providers of data mining services;
- economic or political conditions in the countries in which TeraWulf plans to do business, including civil uprisings, riots, terrorism, kidnappings, the taking of property without fair compensation and legislative changes;
- currency exchange rate fluctuations;
- employment workforce factors, including the loss of key employees;
- the ability to implement certain business objectives and the ability to timely and cost-effectively execute integrated projects;
- changes in governmental safety, health, environmental and other regulations, which could require significant expenditures;
- liability related to the use of TeraWulf’s services;
- the ability to successfully complete merger, acquisition or divestiture plans, regulatory or other limitations imposed as a result of a merger, acquisition or divestiture, and the success of the business following a merger, acquisition or divestiture; and
- other risks, uncertainties and factors included or incorporated by reference in this Quarterly Report, including those set forth under “Risk Factors” and those included under the heading “Risk Factors” in our registration statement on Form S-4, which is incorporated by reference into this Quarterly Report.

These forward-looking statements reflect our views with respect to future events as of the date of this Quarterly Report and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. These forward-looking statements represent our estimates and assumptions only as of the date of this Quarterly Report and, except as required by law, we undertake no obligation to update or review publicly any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Quarterly Report. We anticipate that subsequent events and developments will cause our views to change. You should read this Quarterly Report completely and with the understanding that our actual future results may be materially different from what we expect. Our forward-looking statements do not reflect the potential impact of any future acquisitions, merger, dispositions, joint ventures or investments we may undertake. We qualify all of our forward-looking statements by these cautionary statements.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1 – ORGANIZATION**

**Organization**

On December 13, 2021 (the “Closing Date”), TeraWulf Inc. (formerly known as Telluride Holdco, Inc.), a Delaware corporation, completed the previously announced strategic business combination pursuant to the agreement and plan of merger, dated as of June 24, 2021 (as amended, supplemented or otherwise modified prior to the Closing Date, the “Merger Agreement”), by and among TeraWulf Inc., IKONICS Corporation, a Minnesota corporation (“IKONICS”), TeraCub Inc. (formerly known as TeraWulf Inc.), a Delaware corporation that was formed on February 8, 2021 (“TeraCub”) and certain holding companies and subsidiaries created to effect the merger. In connection with the consummation of the Mergers, Telluride Holdco, Inc. was renamed TeraWulf Inc., and TeraWulf Inc. was renamed TeraCub Inc. TeraWulf Inc. and its subsidiaries are referred to in these consolidated financial statements as “TeraWulf” or the “Company.”

TeraWulf’s planned principal operations consist of developing, constructing and operating bitcoin mining facilities in the United States that are fueled by clean, low cost and reliable power sources. TeraWulf has commenced mining at one bitcoin mining facility and expects to operate a portfolio of bitcoin mining facilities, either wholly-owned or through joint ventures, that each deploy a series of powerful computers that solve complex cryptographic algorithms to mine bitcoin and validate transactions on the bitcoin network. Substantially all of TeraWulf’s revenue will be derived from two primary sources: earning bitcoin rewards and transaction fees for validating transactions. The Company will also leverage its available digital infrastructure to provide miner hosting services to third parties whereby the Company holds an option to purchase the hosted miners in the future at a discounted purchase price. Accordingly, the hosting agreements, including existing executed agreements, may include Company options to purchase the hosted mining equipment. While the Company may choose to mine other cryptocurrencies in the future, it has no plans to do so currently.

TeraWulf’s two bitcoin mining facilities are in New York and Pennsylvania and remain under construction as of June 30, 2022. Mining operations commenced at the New York facility during the three months ended March 31, 2022. The Pennsylvania bitcoin mining facility is being developed and constructed through a joint venture (see Note 11). The Company’s New York bitcoin mining facility is wholly-owned.

In May 2021, TeraWulf created three wholly-owned subsidiaries to facilitate ownership of bitcoin mining facilities or joint venture interests related thereto. Lake Mariner Data LLC and Kyalami Data LLC are subsidiaries involved in developing wholly-owned bitcoin mining facilities in New York. As of the date these consolidated financial statements were available to be issued, Kayalami Data LLC was inactive. TeraWulf (Thales) LLC (“Thales”) is a subsidiary holding interests in a joint venture involved in developing bitcoin mining facilities in Pennsylvania (see Note 11).

IKONICS’ traditional business has been the development and manufacturing of high-quality photochemical imaging systems for sale primarily to a wide range of printers and decorators of surfaces. Customers’ applications are primarily screen printing and abrasive etching. More recently, IKONICS has augmented its customer offerings with inkjet receptive films, ancillary chemicals and related equipment to provide a full line of products and services to its customers. TeraWulf has classified the IKONICS business as held for sale and discontinued operations in these consolidated financial statements (see Note 4).

**Risks and Uncertainties**

*Liquidity and Financial Condition*

The Company incurred a net loss attributable to common stockholders of \$2.1 million, including a net impairment charge (net of a contingent consideration remeasurement gain) of \$3.5 million included in loss from discontinued operations, net of tax related to the acquired IKONICS business (see Notes 3 and 4), and negative cash flows from operations of \$29.8 million for the six months ended June 30, 2022. As of June 30, 2022, the Company had balances of cash and cash equivalents of \$0.9 million, a working capital deficiency of \$76.0 million, total stockholders’ equity of \$135.0 million and an accumulated deficit of \$127.8 million. The Company has commenced mining activities, however not yet to scale, and therefore has not generated material revenues from its mining business. The Company has relied on proceeds from its issuances of debt and equity to fund its principal operations.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

In accordance with development of its bitcoin mining facilities, during the six months ended June 30, 2022, the Company invested approximately \$9.2 million for purchases and deposits on plant and equipment, including deposits on miners under miner purchase agreements for which the Company has significant future obligations as detailed in Note 12. Also, during the six months ended June 30, 2022, the Company invested \$36.4 million, net in its joint venture and has commitments under its joint venture agreement as detailed in Note 11. The Company will need additional capital in order to meet these obligations in accordance with the existing contractual terms and to fund the planned development of its bitcoin mining facilities. Until TeraWulf is able to generate positive cash flows from operations, TeraWulf expects to fund its business operations and infrastructure buildout through the issuance of debt or equity securities or through the provision of miner hosting services. During the six months ended June 30, 2022, the Company entered into an At Market Issuance Sales Agreement for sale of shares of Common Stock having an aggregate offering price of up to \$200.0 million (the “ATM Offering”). The issuance of Common Stock under this agreement will be made pursuant to the Company’s effective registration statement on Form S-3 (Registration statement No. 333-262226). During the six months ended June 30, 2022, the Company issued Common Stock, including under the ATM Offering, for net cash proceeds of \$34.1 million, preferred stock for net cash proceeds of \$9.6 million and a convertible promissory note for net cash proceeds of \$4.7 million. See Notes 13 and 10. Subsequent to June 30, 2022, the Company issued Common Stock under the ATM Offering for gross proceeds of \$2.5 million and amended its long-term debt agreement to provide incremental gross proceeds of \$15.0 million and an additional commitment from the lenders to fund \$35.0 million of additional incremental debt, subject to certain conditions. See Note 17. There can be no assurance that the ATM Offering will provide sufficient capital or that any other financing will be successfully consummated on acceptable terms and volume, if at all, which may impact the timing or scale of TeraWulf’s planned development. In the event TeraWulf is unable to raise additional capital, TeraWulf may seek alternative arrangements or potential partnerships in order to fund its planned development. In the opinion of management, while it expects to be successful in its fundraising efforts, these factors, which include elements of capital acquisition outside the control of the Company, raise substantial doubt about TeraWulf’s ability to continue as a going concern through at least the next twelve months. The consolidated financial statements do not include any adjustments that might result from TeraWulf’s possible inability to continue as a going concern.

*COVID-19*

The Company’s results of operations could be adversely affected by general conditions in the economy and in the global financial markets, including conditions that are outside of the Company’s control, such as the outbreak and global spread of the novel coronavirus disease (“COVID-19”). The COVID-19 pandemic that was declared on March 11, 2020 has caused significant economic dislocation in the United States and globally as governments across the world, including the United States, introduced measures aimed at preventing the spread of COVID-19. The spread of COVID-19 and the imposition of related public health measures have resulted in, and are expected to continue to result in, increased volatility and uncertainty in the cryptocurrency space. Any severe or prolonged economic downturn, as result of the COVID-19 pandemic or otherwise, could result in a variety of risks to the business and management cannot anticipate all the ways in which the current economic climate and financial market conditions could adversely impact its business.

The Company may experience disruptions to its business operations resulting from supply interruptions (including miner delivery interruptions), quarantines, self-isolations, or other movement and restrictions on the ability of its employees or its counterparties to perform their jobs and provide services. The Company may also experience delays in construction and obtaining necessary equipment in a timely fashion. If the Company is unable to effectively set up and service its miners, its ability to mine bitcoin will be adversely affected. The future impact of the COVID-19 pandemic is still highly uncertain and there is no assurance that the COVID-19 pandemic or any other pandemic, or other unfavorable global economic, business or political conditions, will not materially and adversely affect the Company’s business, prospects, financial condition, and operating results.

**NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation and Principles of Consolidation**

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information. In the opinion of the Company, the accompanying unaudited interim consolidated financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair statement of such interim results.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The results for the unaudited interim consolidated statements of operations are not necessarily indicative of results to be expected for the year ending December 31, 2022 or for any future interim period. The unaudited interim consolidated financial statements do not include all the information and notes required by U.S. GAAP for complete financial statements. The accompanying unaudited interim financial statements should be read in conjunction with the consolidated financial statements and related notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

The unaudited interim consolidated financial statements include the accounts of the Company as described in Note 1. All significant intercompany accounts and transactions have been eliminated.

**Use of Estimates in the Financial Statements**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used for (but are not limited to) such items as the fair values of assets acquired and liabilities assumed in business combinations, the fair value of contingent consideration issued in a business combination, the establishment of useful lives for property, plant and equipment and intangible assets, the impairment of goodwill and held for sale assets, the fair value of equity securities issued as a component of a debt offering, the fair value of stock-based compensation, the fair value of assets received in non-monetary transactions, the establishment of right-of-use assets and lease liabilities that arise from leasing arrangements, the timing of commencement of capitalization for plant and equipment, recoverability of deferred tax assets and the recording of various accruals. These estimates are made after considering past and current events and assumptions about future events. Actual results could differ from those estimates.

**Supplemental Cash Flow Information**

The following table shows supplemental cash flow information (in thousands):

|  | Six Months Ended<br>June 30,<br>2022 | Period February 8,<br>2021 (date of<br>inception) to<br>June 30,<br>2021 |
|--|--------------------------------------|--|

| Right-of-use asset obtained in exchange for lease obligation   | \$ —                                 | \$ 1,076   |
| Contribution of deposits on plant and equipment to joint venture   | \$ —                                 | \$ 11,850  |
| Deferred financing costs in accrued liabilities  | \$ 1,351                             | \$ 400   |
| Common stock issuance costs in accounts payable  | \$ 140                               | \$ —   |
| Preferred stock issuance costs in other accrued liabilities or accounts payable  | \$ 293                               | \$ 185   |
| Purchases of and deposits on plant and equipment in accounts payable, accrued construction liabilities, other accrued liabilities and long-term debt | \$ 7,625                             | \$ —   |
| Investment in joint venture in other accrued liabilities and long-term debt  | \$ 1,298                             | \$ —   |
| Increase to preferred stock liquidation preference from accumulating dividends   | \$ 284                               | \$ —   |
| Convertible promissory note deferred issuance costs in accounts payable  | \$ 104                               | \$ —   |

**Cash and Cash Equivalents**

Highly liquid instruments with an original maturity of three months or less are classified as cash equivalents. The Company maintains cash and cash equivalent balances primarily at one financial institution that is insured by the Federal Deposit Insurance Corporation ("FDIC"). The Company's accounts at this institution are insured, up to \$250,000, by the FDIC. As of June 30, 2022, the Company's bank balances exceeded the FDIC insurance limit in an amount of \$0.2 million. To reduce its risk associated with the failure of such financial institution, the Company evaluates at least annually the rating of the financial institution in which it holds deposits. As of June 30, 2022 and December 31, 2021, the Company had cash and cash equivalents of \$0.9 million and \$43.4 million, respectively.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Restricted Cash**

The Company considers cash and marketable securities to be restricted when withdrawal or general use is legally restricted. The Company reports restricted cash in the consolidated balance sheets and determines current or non-current classification based on the expected duration of the restriction. The restricted cash included in the consolidated balance sheets as of June 30, 2022 and December 31, 2021 is restricted as to use due to being held as a construction escrow by a third-party escrow agent.

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated balance sheets that total to the amounts shown in the consolidated statements of cash flows (in thousands):

|   | <u>June 30, 2022</u> | <u>December 31, 2021</u> |
|---|----------------------|--------------------------|
| Cash and cash equivalents                     | \$ 921               | \$ 43,448                |
| Restricted cash                               | 1                    | 3,007                    |
| Cash and cash equivalents and restricted cash | <u>\$ 922</u>        | <u>\$ 46,455</u>         |

**Segment Reporting**

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision-making group ("CODM") is composed of the chief executive officer, chief operating officer and chief strategy officer. The Company currently operates in the Digital Currency Mining segment and through its ownership of IKONICS operates in the Imaging Technology segment. The Company's mining operations are located in the United States, and the Company has employees only in the United States and views its mining operations as one operating segment as the CODM reviews financial information on a consolidated basis in making decisions regarding resource allocations and assessing performance. TeraWulf has classified the IKONICS segment as held for sale and discontinued operations in these consolidated financial statements (see Note 4).

**Property, Plant and Equipment**

Property, plant and equipment are recorded at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets (generally 5 years for computer equipment, 4 years for mining equipment and 25 years for electrical equipment). Leasehold improvements are depreciated over the shorter of their estimated useful lives or the lease term. Property, plant and equipment includes deposits, amounting to approximately \$82.7 million and \$70.6 as of June 30, 2022 and December 31, 2021, respectively, on purchases of such assets, including miners, which would be included in property, plant and equipment upon receipt.

Interest related to construction of assets is capitalized when the financial statement effect of capitalization is material, construction of the asset has begun, and interest is being incurred. Interest capitalization ends at the earlier of the asset being substantially complete and ready for its intended use or when interest costs are no longer being incurred.

**Leases**

The Company determines if an arrangement is a lease at inception and, if so, classifies the lease as an operating or finance lease. Operating leases are included in right-of-use ("ROU") asset, current portion of operating lease liabilities, and long-term lease operating liabilities in the consolidated balance sheets. Finance leases are included in property, plant and equipment, current portion of finance lease liabilities, and long-term finance lease liabilities in the consolidated balance sheets. The Company does not recognize a ROU asset or lease liability for short-term leases having initial terms of 12 months or less and instead recognizes rent expense on a straight-line basis over the lease term. In an arrangement that is determined to be a lease, the Company includes both the lease and nonlease components as a single component and accounts for it as a lease when the Company would otherwise recognize the cost associated with both the lease and nonlease components in a similar fashion.

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Lease ROU assets and liabilities are recognized at commencement date, and

## TERAWULF INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

subsequently remeasured upon changes to the underlying lease arrangement, based on the present value of lease payments over the lease term. If the lease does not provide an implicit rate or if the implicit rate is not determinable, the Company generally uses an estimate of its incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at the commencement date. The ROU asset also includes any lease prepayments made and excludes lease incentives. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option.

Costs associated with operating lease ROU assets are recognized on a straight-line basis within operating expenses or selling, general and administrative, as appropriate, over the term of the lease. Finance ROU lease assets are amortized within operating expenses or selling, general and administrative, as appropriate, on a straight-line basis over the shorter of the estimated useful lives of the assets or, in the instance where title does not transfer at the end of the lease term, the lease term. The interest component of a finance lease is included in interest expense and recognized using the effective interest method over the lease term.

As of June 30, 2022 and December 31, 2021, the Company is not a counterparty to any finance leases.

#### Convertible Instruments

The Company accounts for its issuance of debt and equity instruments in accordance with applicable U.S. GAAP. In connection with that accounting, the Company assesses the various terms and features of the agreement to determine if any such feature is a derivative in accordance with Financial Accounting Standards Board ("FASB") ASC No. 815 "Derivatives and Hedging Activities" ("ASC No. 815"). ASC No. 815 requires companies to bifurcate conversion options from their host instruments and account for them as freestanding derivative financial instruments according to certain criteria. The criteria includes circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) a convertible promissory note that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable U.S. GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

#### Nonmonetary Transactions

The Company accounts for goods received in nonmonetary transactions at fair value unless the underlying exchange transaction lacks commercial substance or the fair value of the assets received or relinquished is not reasonably determinable, in which case the nonmonetary exchange would be measured based on the recorded amount of the nonmonetary asset relinquished.

#### Stock Issuance Costs

Stock issuance costs are recorded as a reduction to issuance proceeds. Stock issuance costs incurred prior to the closing of the related issuances, including under shelf registration statements, are recorded in other assets in the consolidated balance sheets if the closing of the related issuance is deemed probable.

#### Held for Sale and Discontinued Operations Classification

The Company classifies a business as held for sale in the period in which management commits to a plan to sell the business, the business is available for immediate sale in its present condition, an active program to complete the plan to sell the business is initiated, the sale of the business within one year is probable and the business is being marketed at a reasonable price in relation to its fair value.

Newly acquired businesses that meet the held-for-sale classification criteria upon acquisition are reported as discontinued operations. Upon a business' classification as held for sale, net assets are measured for impairment. An impairment loss is recorded for goodwill when a reporting unit's goodwill carrying value exceeds its implied fair value. An impairment loss is recorded for long-lived assets held for sale when the carrying amount of the asset exceeds its fair value less cost to sell. Other assets and liabilities are generally measured for impairment by comparing their carrying values to their respective fair values. A long-lived asset shall not be depreciated or amortized while it is classified as held for sale.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Revenue Recognition**

The Company recognizes revenue under the FASB ASC 606 “*Revenue from Contracts with Customers*” (“ASC 606”). The core principle of the revenue standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The following five steps are applied to achieve that core principle:

- Step 1: Identify the contract with the customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when the Company satisfies a performance obligation

In order to identify the performance obligations in a contract with a customer, a company must assess the promised goods or services in the contract and identify each promised good or service that is distinct. A performance obligation meets ASC 606’s definition of a “distinct” good or service (or bundle of goods or services) if both of the following criteria are met: the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer (i.e., the good or service is capable of being distinct), and the entity’s promise to transfer the good or service to the customer is separately identifiable from other promises in the contract (i.e., the promise to transfer the good or service is distinct within the context of the contract).

If a good or service is not distinct, the good or service is combined with other promised goods or services until a bundle of goods or services is identified that is distinct.

The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both. When determining the transaction price, an entity must consider the effects of all of the following:

- Variable consideration
- Constraining estimates of variable consideration
- The existence of a significant financing component in the contract
- Noncash consideration
- Consideration payable to a customer

Variable consideration is included in the transaction price only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. The transaction price is allocated to each performance obligation on a relative standalone selling price basis. The transaction price allocated to each performance obligation is recognized when that performance obligation is satisfied, at a point in time or over time as appropriate.

## TERAWULF INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### *Mining pools*

The Company has entered into an arrangement with a cryptocurrency mining pool to provide computing power to the mining pool. The arrangement is terminable at any time by either party and our enforceable right to compensation only begins when the Company provides computing power to the mining pool operator. The mining pool applies the Full Pay Per Share (“FPPS”) model. Under the FPPS model, in exchange for providing computing power to the pool, the Company is entitled to compensation, calculated on a daily basis, at an amount that approximates the total bitcoin that could have been mined using the Company’s computing power, based upon the then current blockchain difficulty. Under this model, the Company is entitled to compensation regardless of whether the pool operator successfully records a block to the bitcoin blockchain. Fair value of the cryptocurrency award received is determined using the quoted price of the related cryptocurrency at the time of contract inception.

There is no significant financing component in these transactions. There may be, however, consideration payable to the customer in the form of a pool operator fee; this fee will be deducted from the proceeds the Company receives and will be recorded as contra-revenue, as it does not represent a payment for a distinct good or service.

Providing computing power in cryptocurrency transaction verification services is an output of the Company’s ordinary activities. The provision of providing such computing power is a performance obligation. The transaction consideration the Company receives is non-cash consideration and is all variable. Fair value of the cryptocurrency award received for cryptocurrency transaction verification services is determined using the quoted price of the related cryptocurrency at the time of receipt. There is no significant financing component in these transactions.

The Company provides miner hosting services to customers. Hosting revenue is recognized in accordance with ASC 606 over the period of service. The Company recorded miner hosting revenue of approximately \$0.4 million during the six months ended June 30, 2022.

#### **Cryptocurrencies**

Cryptocurrencies, including bitcoin, are included in current assets in the consolidated balance sheets. Cryptocurrencies purchased will be recorded at cost and cryptocurrencies awarded to the Company through mining activities will be accounted for in connection with the Company’s revenue recognition policy disclosed above.

Cryptocurrencies will be accounted for as intangible assets with indefinite useful lives. An intangible asset with an indefinite useful life is not amortized but assessed for impairment on a daily basis. Impairment exists when the carrying amount exceeds its fair value, which is measured using the quoted price of the cryptocurrency at the time its fair value is being measured. In testing for impairment, the Company has the option to first perform a qualitative assessment to determine whether it is more likely than not that an impairment exists. If it is determined that it is not more likely than not that an impairment exists, a quantitative impairment test is not necessary. If the Company concludes otherwise, the Company is required to perform a quantitative impairment test. To the extent an impairment loss is recognized, the loss establishes the new cost basis of the asset. Subsequent reversal of impairment losses is not permitted.

Purchases of cryptocurrencies, if any, made by the Company will be included within investing activities in the consolidated statements of cash flows, while cryptocurrencies awarded to the Company through its mining activities will be included within operating activities in the consolidated statements of cash flows. The sales of cryptocurrencies will be included within investing activities in the consolidated statements of cash flows and any realized gains or losses from such sales will be included in other income (expense) in

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

the consolidated statements of operations. The Company will account for its gains or losses in accordance with the first in first out (“FIFO”) method of accounting. The following table presents digital currency activity (in thousands):

|                                       | Six Months<br>Ended<br>June 30,<br>2022 | Period February<br>8, 2021 (date of<br>inception) to<br>June 30,<br>2021 |
|---------------------------------------|---|--|
| Beginning balance                     | \$ —                                    | \$ —   |
| Revenue recognized from bitcoin mined | 1,214                                   | —  |
| Impairment of bitcoin                 | (563)                                   | —  |
| Ending balance                        | <u>\$ 651</u>                           | <u>\$ —</u>  |

**Stock-based Compensation**

The Company periodically issues restricted stock units to employees and non-employees in non-capital raising transactions for services. In accordance with the authoritative guidance for share-based payments FASB ASC 718 “*Compensation – Stock Compensation*,” the Company measures stock-based compensation cost at the grant date, based on the estimated fair value of the award. Expense for restricted stock units and stock options is recognized on a straight-line basis over the employee’s requisite service period. The Company accounts for forfeitures as they occur. The Company recognizes excess tax benefits or deficiencies on vesting or settlement of awards as discrete items within income tax benefit or provision within net income (loss) and the related cash flows are classified within operating activities.

**Loss per Share**

The Company computes earnings (loss) per share using the two-class method required for participating securities. The two-class method requires income available to common stockholders for the period to be allocated between common stock and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed.

Basic loss per share of common stock is computed by dividing the Company’s net loss attributable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share reflects the effect on weighted average shares outstanding of the number of additional shares outstanding if potentially dilutive instruments, if any, were converted into common stock using the treasury stock method or as-converted method, as appropriate. The computation of diluted loss per share does not include dilutive instruments in the weighted average shares outstanding, as they would be anti-dilutive. The Company’s dilutive instruments or participating securities as of June 30, 2022 include convertible preferred stock, a convertible promissory note and restricted stock units issued for services. The Company had no dilutive instruments or participating securities as of December 31, 2021.

**Concentrations**

The Company or its joint venture have contracted with two suppliers for the provision of bitcoin miners. One supplier, Minerva Semiconductor Corp., for the joint venture continues to deliver miners, but is well behind on its miner delivery schedule due to COVID-19 lockdowns, power shortages and other operational issues at its factory. Although the supplier has committed to fulfilling its performance obligations with increased future production levels, shipments of miners have continued to be delayed.

The Company has currently contracted with one mining pool operator and one cryptocurrency custodian. The Company does not believe that these counterparties represent a significant performance risk.

The Company operates bitcoin mining facilities. While the Company may choose to mine other cryptocurrencies in the future, it has no plans to do so currently. If the market value of bitcoin declines significantly, the consolidated financial condition and results of operations of the Company may be adversely affected.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Recent Accounting Standards**

In June 2022, the FASB issued Accounting Standards Update 2022-03, *Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions* (“ASU 2022-03”). ASU 2022-03 was issued to (1) to clarify the guidance in Topic 820, Fair Value Measurement, when measuring the fair value of an equity security subject to contractual restrictions that prohibit the sale of an equity security, (2) to amend a related illustrative example and (3) to introduce new disclosure requirements for equity securities subject to contractual sale restrictions that are measured at fair value in accordance with Topic 820. The amendments in this update are effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. Early adoption is permitted. The Company is evaluating the impact of the accounting and disclosure requirements of ASU 2022-03 on the Company’s consolidated financial statements and disclosures.

**NOTE 3 – BUSINESS COMBINATION**

On June 25, 2021, TeraCub entered into the Merger Agreement with IKONICS, a public company registered on the National Association of Securities Dealers Automated Quotations (“Nasdaq”), pursuant to which, among other things, TeraCub would effectively acquire IKONICS and become a publicly traded company on the Nasdaq, which was the primary purpose of the business combination. The closing date of the acquisition was December 13, 2021. Under the terms of the Merger Agreement, each share of IKONICS common stock issued and outstanding immediately prior to the transaction close, as defined (the “Closing”), was automatically converted into and exchanged for (i) one validly issued, fully paid and nonassessable share of Common Stock of the surviving public company, TeraWulf, (ii) one contractual contingent value right (“CVR”) to a Contingent Value Rights Agreement (“CVR Agreement” as discussed below) and (iii) the right to receive \$5.00 in cash, without interest. Pursuant to the CVR Agreement, each shareholder of IKONICS as of immediately prior to the Closing, received one non-transferable CVR for each outstanding share of common stock of IKONICS then held. The holders of the CVRs are entitled to receive 95% of the Net Proceeds (as defined in the CVR Agreement), if any, from the sale, transfer, disposition, spin-off, or license of all or any part of the pre-merger business of IKONICS, subject to a reserve of up to 10% of the Gross Proceeds (as defined in the CVR Agreement) from such transaction. The CVRs do not confer to the holders thereof any voting or equity or ownership interest in TeraWulf. The CVRs are not transferable, except in limited circumstances, and will not be listed on any quotation system or traded on any securities exchange. The CVR Agreement will terminate after all payment obligations to the holders thereof have been satisfied. Holders of CVRs will not be eligible to receive payment for dispositions, if any, of any part of the pre-merger business of IKONICS after the eighteen-month anniversary of the Closing.

On April 15, 2022, a Definitive Agreement was signed whereby IKONICS agreed to sell a certain property, including a warehouse, to a third party for \$7.0 million. The Definitive Agreement includes certain indemnifications which are subject to a \$850,000 limitation and related escrow of that amount upon consummation of the transaction. In July 2022, the transaction price was adjusted to \$6.7 million and the transaction close occurred in August 2022.

In April 2022, the Company became aware of certain potential environmental remediation that may be required on a property of IKONICS. The site was enrolled in the Voluntary Investigation and Cleanup program with the Minnesota Pollution Control Agency (“MPCA”). In June 2022, the MPCA issued a No Action Determination for Soil letter regarding soil findings related to arsenic, lead, mercury and polynuclear aromatic hydrocarbons identified in the soil samples. A second seasonal soil vapor sampling event during winter conditions will be required to be completed at the site. As of the date these consolidated financial statements were available to be issued, because the extent of any potential remediation procedures is not known, the Company cannot reasonably estimate a range of potential remediation costs, if any.

On August 5, 2022, an Asset Purchase Agreement (the “APA”) was signed whereby IKONICS agreed to sell (i) certain property, including a warehouse and a building which houses manufacturing, operations and administration, (ii) substantially all of its working capital and (iii) its historical business to a third party for \$6.5 million. The APA is structured as an asset sale and includes a net working capital true up provision. The APA includes certain indemnifications which are subject to a \$650,000 limitation and a related escrow of that amount upon consummation of the transaction. Substantially all of the remaining purchase price will be placed into escrow upon consummation of the transaction pending the completion of remaining aforementioned environmental testing and remediation resulting therefrom, if any. The environmental escrow will be released upon completion of any remediation work required and a receipt of a No Action Determination from the MPCA. The transaction close occurred in August 2022.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Consideration Transferred**

The following table summarizes the fair value, as of the date of the Closing of the transaction, of the aggregate consideration paid for IKONICS (in thousands):

|   |                  |
|---|------------------|
| Cash consideration                                    | \$ 13,712        |
| Equity instruments: 1,999,525 shares of TeraWulf Inc. | 40,590           |
| Contingent consideration: Contingent Value Rights     | 12,000           |
|   | <u>\$ 66,302</u> |

As of June 30, 2022, the amount recognized for the CVR contingent consideration was remeasured to a fair value of \$0.6 million. The \$1.4 million gain on remeasurement is included in loss from discontinued operations, net of tax in the consolidated statement of operations for the six months ended June 30, 2022.

The Company's consolidated financial statements include the operating results of IKONICS beginning on December 13, 2021, the date of the acquisition. The operating loss of \$4.9 million related to the IKONICS' business has been reflected in loss from discontinued operations, net of tax in the Company's consolidated statement of operations for the six months ended June 30, 2022.

**NOTE 4 – ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS**

Upon acquisition, the IKONICS business met the assets held-for-sale and discontinued operations criteria and is reflected as discontinued operations held for sale in these consolidated financial statements. The Company determined that the IKONICS business qualified as assets held for sale as management committed to a plan to sell the business, the business was in readily sellable form and it was deemed probable that the business would be sold in a twelve-month period. The structure of the business combination, through the CVR Agreement, contemplated the sale of the IKONICS legacy business whereby the Company would become solely a bitcoin mining focused entity. The Merger Agreement requires IKONICS, after the Closing, to use its reasonable best efforts to consummate a sale of its legacy business as soon as reasonably practicable. The CVR Agreement provides that 95% of the net proceeds of the disposition, as defined, of the IKONICS business accrue to the historical stockholders of IKONICS if the disposition is consummated within eighteen months from the Closing.

The assets and liabilities of IKONICS are presented separately in current assets held for sale and current liabilities held for sale, respectively, in the consolidated balance sheets and includes the following (in thousands):

|   | June 30, 2022    | December 31, 2021 |
|---|------------------|-------------------|
| Trade receivables                         | \$ 1,843         | \$ 1,327          |
| Inventories                               | 3,997            | 3,737             |
| Prepaid expenses and other current assets | 551              | 944               |
| Property, plant and equipment             | 7,540            | 10,036            |
| Intangible assets                         | 1,265            | 3,304             |
| Current assets held for sale              | <u>\$ 15,196</u> | <u>\$ 19,348</u>  |
| Accounts payable                          | \$ 1,567         | \$ 1,207          |
| Accrued compensation                      | 785              | 439               |
| Other accrued liabilities                 | 142              | 109               |
| Current liabilities held for sale         | <u>\$ 2,494</u>  | <u>\$ 1,755</u>   |

During the six months ended June 30, 2022, the Company determined that change in circumstance indicated that the then carrying amount of the IKONICS' long-lived assets may not be recoverable and has recognized an impairment loss in loss on discontinued operations, net of tax of \$4.5 million to write down the related carrying amounts to their fair values less estimated cost to sell. The loss

**TERAWULF INC. AND SUBSIDIARIES**

| Income tax expense   | 9   | 8   |
| Loss from discontinued operations, net of tax                  | <u>\$ (630)</u>                                 | <u>\$ (4,942)</u>                             |

Total cash flows used in operating activities from discontinued operations was \$45,000 and \$0 in the consolidated statements of cash flows for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively.

**NOTE 5 – FAIR VALUE MEASUREMENTS**

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a three-level fair value hierarchy prioritizing the inputs to valuation techniques is used to measure fair value. The levels are as follows: (Level 1) observable inputs such as quoted prices in active markets for identical assets or liabilities; (Level 2) observable inputs for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable either directly or indirectly from market data; and (Level 3) unobservable inputs in which there is little or no market data, which require the Company to develop its own assumptions. This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The following table illustrates the financial instruments measured at fair value on a non-recurring basis segregated by hierarchy fair value levels as of June 30, 2022 (in thousands):

|  | <b>Carrying Value</b> | <b>Quoted Prices<br/>in Active<br/>Markets<br/>(Level 1)</b> | <b>Significant<br/>Other<br/>Observable<br/>Inputs<br/>(Level 2)</b> | <b>Significant<br/>Other<br/>Unobservable<br/>Inputs<br/>(Level 3)</b> | <b>Remeasurement<br/>Gain</b> | <b>Impairment</b> |
|--|-----------------------|--|--|--|-------------------------------|-------------------|
| Contingent consideration liability - Contingent Value Rights (1) | \$ 10,594             | \$ —   | \$ 10,594  | \$ —   | \$ 1,406                      | \$ —              |
| Long-lived assets held for sale - intangible assets (1)          | 1,265                 | —  | 1,265  | —  | —                             | 2,039             |
|  | <u>\$ 11,859</u>      | <u>\$ —</u>  | <u>\$ 11,859</u>   | <u>\$ —</u>  | <u>\$ 1,406</u>               | <u>\$ 2,039</u>   |

- (1) During the six months ended June 30, 2022, the Company changed the valuation approach from the use of other unobservable inputs to other observable inputs based on information obtained through the active marketing of the underlying assets.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The following table illustrates the financial instruments measured at fair value on a non-recurring basis segregated by hierarchy fair value levels as of December 31, 2021 (in thousands):

|  | Carrying Value  | Quoted Prices<br>in Active<br>Markets<br>(Level 1) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Other<br>Unobservable<br>Inputs<br>(Level 3) | Impairment       |
|--|-----------------|--|---|---|------------------|
| Contingent consideration liability - Contingent Value Rights (1) | \$ 12,000       | \$ —   | \$ —  | \$ 12,000   | \$ —             |
| Goodwill   | —               | —  | —   | —   | 48,338           |
| Long-lived assets held for sale - intangible assets (2)          | 3,304           | —  | —   | 3,304   | 136              |
|  | <u>\$ 3,304</u> | <u>\$ —</u>  | <u>\$ —</u>   | <u>\$ 3,304</u>   | <u>\$ 48,474</u> |

- (1) At December 31, 2021, the significant unobservable inputs used to estimate fair value include (1) a business enterprise value of \$15.9 million, (2) an implied probability of sale of 90% and (3) estimated transaction and other deductible costs of \$1.6 million. The significant unobservable inputs used in applying the income approach include a discount rate of 11.5% and a long-term growth rate of 2.5%.
- (2) At December 31, 2021, the significant unobservable inputs used to estimate fair value include an attrition rate of 4% to 10% (with a weighted average of 8%) and a discount rate of 27% for customer relationships, twelve months' time to recreate for developed technology and a royalty rate of 0.5% and a discount rate of 27% for trade names.

The Company has determined the long-term debt fair value as of June 30, 2022 is approximately \$10.5 million. See Note 9. The Company has determined the convertible promissory note fair value as of June 30, 2022 approximates its book value due to the short duration between the issuance of the convertible promissory note and June 30, 2022. See Note 10. The carrying values of cash and cash equivalents, restricted cash, prepaid expenses, amounts due from related parties, other current assets, accounts payable, accrued construction liabilities, other accrued liabilities and other amounts due to related parties are considered to be representative of their respective fair values principally due to their short-term maturities. There were no additional material non-recurring fair value measurements as of June 30, 2022 and December 31, 2021, except for the calculation of the allocation of the IKONICS purchase price to the fair values of the assets acquired and liabilities assumed and the impairment loss upon IKONICS' classification as held for sale.

**NOTE 6 — PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment, net consisted of the following (in thousands):

|                                | June 30, 2022     | December 31, 2021 |
|--------------------------------|-------------------|-------------------|
| Miners                         | \$ 15,997         | \$ —              |
| Construction in process        | 52,347            | 20,867            |
| Leasehold improvements         | 2,490             | —                 |
| Equipment                      | 778               | 19                |
| Deposits on miners             | 82,688            | 70,560            |
|                                | <u>154,300</u>    | <u>91,446</u>     |
| Less: accumulated depreciation | (204)             | —                 |
|                                | <u>\$ 154,096</u> | <u>\$ 91,446</u>  |

The Company capitalizes a portion of the interest on funds borrowed to finance its capital expenditures. Capitalized interest is recorded as part of an asset's cost and will be depreciated over the asset's useful life. Capitalized interest costs were \$2.4 million and \$0 for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. Approximately \$10.9 million of the miners (see Note 11 regarding the Nautilus Miners, as defined therein) were placed in service as of June 30, 2022.

Depreciation expense was \$204,000 and \$0 for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 7 — LEASES**

Effective in May 2021, the Company entered into a ground lease (the “Ground Lease”) related to its planned bitcoin mining facility in New York with a counterparty which is a related party due to control by a member of Company management. The Ground Lease includes fixed payments and contingent payments, including an annual escalation based on the change in the Consumer Price Index as well as the Company’s proportionate share of the landlord’s cost to own, operate and maintain the premises. The Ground Lease had an initial term of five years commencing in May 2021 and a renewal term of five years at the option of the Company, subject to the Company not then being in default, as defined. In July 2022, the initial term of the lease was extended to eight years. See Note 17. Upon expiration of the lease, the buildings and improvements on the premises will revert to the landlord in good order. Payments under the lease commenced in 2021. The Ground Lease is classified as an operating lease based on an analysis that utilized a discount rate of 6%, which is an estimate of the Company’s incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at the commencement date. For the six months ended June 30, 2022, the Company recorded operating lease expense of \$99,000, including contingent expense of \$25,000 in operating expense in the consolidated statement of operations and made lease payments of \$50,000. The remaining lease term based on the terms of the lease as of June 30, 2022 is 8.9 years.

Based on the lease terms as then existed, the following is a maturity analysis of the annual undiscounted cash flows of the estimated operating lease liabilities as of June 30, 2022 (in thousands):

|                          |                 |
|--------------------------|-----------------|
| Year ending December 31: |                 |
| 2022                     | \$ 76           |
| 2023                     | 150             |
| 2024                     | 150             |
| 2025                     | 150             |
| 2026                     | 150             |
| Thereafter               | 662             |
|                          | <u>\$ 1,338</u> |

A reconciliation of the undiscounted cash flows to the operating lease liabilities recognized in the consolidated balance sheet as of June 30, 2022 follows (in thousands):

|   |               |
|---|---------------|
| Undiscounted cash flows of the operating lease    | \$ 1,338      |
| Unamortized discount                              | 300           |
| Total operating lease liability                   | <u>1,038</u>  |
| Current portion of operating lease liability      | 91            |
| Operating lease liability, net of current portion | <u>\$ 947</u> |

During the six months ended June 30, 2022, the Company entered into a short term lease arrangement for digital currency mining equipment. The term of the operating lease was two months and concluded in May 2022. There were no variable charges under this arrangement. For the six months ended June 30, 2022, lease expense related to this arrangement of \$1.3 million was recorded in operating expense in the consolidated statement of operations.

**NOTE 8 – INCOME TAXES**

The Company’s tax provision or benefit from income taxes for interim periods is determined using an estimate of the Company’s annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. The Company has an effective tax rate of 0.0% for the six months ended June 30, 2022, and the period February 8, 2021 (date of inception) to June 30, 2021. The Company’s effective rate differs from its statutory rate of 21% primarily due to the recording of a valuation allowance against its deferred tax assets.

ASC 740 requires a valuation allowance to reduce the deferred tax assets reported if, based on the weight of available evidence, it is more likely than not that some or a portion or all the deferred tax assets will not be realized. As of June 30, 2022 and December 31, 2021, the Company estimated a portion of its deferred tax assets will be utilized to offset the Company’s deferred tax liabilities.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Based upon the level of historical U.S. losses and future projections over the period in which the remaining deferred tax assets are deductible, at this time, management believes it is more likely than not that the Company will not realize the benefits of the remaining deductible temporary differences, and as a result the Company has recorded a valuation allowance as of June 30, 2022 and December 31, 2021 for the amount of deferred tax assets that will not be realized.

The Company has no unrecognized tax benefits as of June 30, 2022 and December 31, 2021. The Company's policy is to recognize interest accrued and penalties related to unrecognized tax benefits in tax expense. No accrued interest or penalties were recorded during the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021.

**NOTE 9 – DEBT****Promissory Notes**

Between October 4, 2021 and November 19, 2021, the Company obtained loans (each, a "Loan") from its three largest stockholders in an aggregate principal amount of \$25.0 million, each evidenced by a promissory note, certain of which were amended and restated subsequent to issuance. Interest on the unpaid principal balance of each Loan accrued at a rate of 8% per annum and was paid in kind and added to the principal balance of such Loan on a monthly basis. The outstanding principal amount of each Loan, together with all accrued and unpaid interest thereon, was due and payable in full on the earliest to occur of: (i) the issuance of equity securities by the Company or any of its subsidiaries under any offering in an amount greater than \$50.0 million; and (ii) the first anniversary of the issuance date of such Loan. The Company could have prepaid the outstanding principal balance of the Loans, in whole or in part, without penalty or premium at any time prior to the applicable maturity date. In December 2021, the Loans were repaid in full.

**Long-Term Debt**

Long-term debt consists of the following (in thousands):

|   | <b>June 30, 2022</b> | <b>December 31, 2021</b> |
|---|----------------------|--------------------------|
| Term loan   | \$ 123,500           | \$ 123,500               |
| Debt issuance costs and debt discount                           | (22,670)             | (28,873)                 |
|   | 100,830              | 94,627                   |
| Less long-term debt due within one year                         | 15,437               | —                        |
| <b>Total long-term debt, net of portion due within one year</b> | <b>\$ 85,393</b>     | <b>\$ 94,627</b>         |

On December 1, 2021, TeraCub entered into a Loan, Guaranty and Security Agreement with Wilmington Trust, National Association as administrative agent (the "LGSA"). The LGSA consists of a \$123.5 million term loan facility (the "Term Loan"). On December 14, 2021, TeraWulf executed a joinder agreement whereby it effectively became the successor borrower to TeraCub and assumed all obligations under the LGSA. The Company is required to pay the outstanding principal balance of the Term Loan in quarterly installments, commencing in April 2023, equal to 12.5% of the original principal amount of the Term Loan. The maturity date of the Term Loan is December 1, 2024. The Term Loan bears an interest rate of 11.5% and an upfront fee of 1%, an amount of approximately \$1.2 million. Upon the occurrence and during the continuance of an event of default, as defined, the applicable interest rate will be 13.5%. Interest payments are due quarterly in arrears. The Company has the option to prepay all or any portion of the Term Loan in increments of at least \$5.0 million subject to certain prepayment fees, including: (1) if paid prior to the first anniversary of the LGSA, a make whole amount based on the present value of the unpaid interest that would have been paid on the prepaid principal amount over the first year of the Term Loan, (2) if paid subsequent to the first anniversary of the LGSA but prior to the second anniversary of the LGSA, an amount of 3% of the prepaid principal and (3) if paid subsequent to the second anniversary of the LGSA but prior to the maturity date of the LGSA, an amount of 2% of the prepaid principal. Certain events, as described in the LGSA, require mandatory prepayment. The Term Loan is guaranteed by TeraWulf Inc. and TeraCub and its subsidiaries, as defined, and is collateralized by substantially all of the properties, rights and assets of TeraWulf Inc. and TeraCub and its subsidiaries (except IKONICS), as defined. One Term Loan investor, NovaWulf Digital Master Fund, L.P., with a principal balance of \$15.0 million, is a related party due to cumulative voting control by members of Company management and a member of the Company's board of directors. In July 2022, NovaWulf Digital Master Fund, L.P. transferred a principal balance of \$13.0 million of the Term Loan to NovaWulf Digital Private Fund LLC.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The LGSA requires the Company to maintain or meet certain affirmative, negative, financial and reporting covenants. The affirmative covenants include, among other things, a requirement for the Company to maintain insurance coverage, maintain mining equipment and comply in all material respects with the Company's Nautilus joint venture agreement (see Note 11), each as defined. The negative covenants restrict or limit the Company's ability to, among other things, incur debt, create liens, divest or acquire assets, make restricted payments and permit the Company's interest in the Nautilus joint venture to be reduced below 50%, each as defined. The LGSA also contains usual and customary events of default. If an event of default occurs and is continuing, the then outstanding obligations under the LGSA may become immediately due and payable.

In connection with the LGSA, the Company issued to the holders of the Term Loans 839,398 shares of Common Stock (the "Term Loan Equity"), which is a quantity of Common Stock which represented 1.5% of the outstanding shares of the publicly registered shares of TeraWulf subsequent to the Closing. In connection with the issuance of the Term Loans, the Company incurred aggregate issuance costs of approximately \$4.0 million, in addition to the \$1.2 million upfront fee. The aggregate issuance costs and the upfront fee were allocated to the Term Loan Equity and the Term Loan based on the relative fair value method in the amounts of \$1.1 million and \$4.1 million, respectively. For the Term Loan, this \$4.1 million was included in debt discount along with the fair value of the Term Loan Equity, an amount of \$25.7 million. The total of these items, an amount of \$29.8 million, represents debt issuance costs and debt discount and is deducted from the Term Loan proceeds and is being accreted into the long-term debt balance over the three-year term of the debt at an effective interest rate of 12.9%, which is in addition to the stated interest rate. For the six months ended June 30, 2022, the Company amortized \$0.2 million of the capitalized debt issuance costs and debt discount to (1) interest expense of \$4.4 million in the consolidated statement of operations, (2) capitalized interest in property, plant and equipment, net of \$1.1 million in the consolidated balance sheet and (3) capitalized interest in equity in net assets of investee of \$0.7 million in the consolidated balance sheet. Capitalized debt issuance costs and debt discount of \$2.7 million and \$28.9 million are recorded as a reduction of long-term debt as of June 30, 2022 and December 31, 2021, respectively, in the consolidated balance sheets.

Principal maturities of outstanding long-term debt as of June 30, 2022 are as follows (in thousands):

| Year ending December 31:   |                   |
|----------------------------|-------------------|
| 2022                       | \$ —              |
| 2023                       | 46,313            |
| 2024                       | 77,187            |
| Total principal maturities | <u>\$ 123,500</u> |

**NOTE 10 – STANDBY EQUITY PURCHASE AGREEMENT AND CONVERTIBLE PROMISSORY NOTE****Standby Equity Purchase Agreement**

On June 2, 2022, the Company entered into the SEPA with YA II PN, Ltd. ("Yorkville"). Pursuant to the SEPA, the Company shall have the right, but not the obligation, to sell to Yorkville up to \$50,000,000 of its shares of Common Stock, at the Company's request any time during the commitment period commencing on June 2, 2022 and terminating on the earliest of (i) the first day of the month following the 36-month anniversary of the SEPA and (ii) the date on which Yorkville shall have made payment of any advances requested pursuant to the SEPA for shares of the Common Stock equal to the commitment amount of \$50,000,000. Each sale the Company requests under the SEPA (an "Advance") may be for a number of shares of Common Stock with an aggregate value of the greater of (1) an amount equal to 30% of the daily value traded, as defined, of Common Stock on the trading day prior to the delivery of the Advance notice or (2) \$5,000,000. The Common Stock would be purchased at 97.0% of the Market Price, (as defined below) and would be subject to certain limitations, including that Yorkville could not purchase any Common Stock that would result in it owning more than 4.99% of the Company's outstanding Common Stock at the time of an Advance (the "Ownership Limitation") or an aggregate of 19.99% of the Company's outstanding Common Stock as of the date of the SEPA (the "Exchange Cap"). The Exchange Cap will not apply under certain circumstances, including to any sales of common stock under the SEPA that equal or exceeds \$3.04 per share of Common Stock. "Market Price" is defined in the SEPA as the average of the daily volume weighted average price, as defined, during each of the three consecutive trading days commencing on the trading day following the Company's submission of an Advance notice to Yorkville. The SEPA contains customary registration rights, representations, warranties, conditions and indemnification obligations by each party. Certain conditions precedent must be satisfied in order for the Company to deliver a notice of Advance. These conditions include, but are not limited to, the existence of an effective registrations statement pursuant to which Yorkville is permitted to utilize the prospectus thereunder to resell all of the Common Stock issuable pursuant to the Notice. The

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

issuance and sale of the Common Stock by the Company under the SEPA are made pursuant to the prospectus and prospectus supplement forming a part of the the Company's shelf registration statement on Form S-3 (Registration Statement No. 333-262226), which was declared effective on February 4, 2022 ("the 2022 Registration Statement"), including a final prospectus supplement dated June 10, 2022.

In addition to the Company's right to request Advances, subject to certain conditions precedent, the Company had the option to, but was not obligated to, effect a pre-advance loan with a principal amount of \$15.0 million through the issuance and sale to Yorkville of a convertible promissory note (the "Promissory Note"). The Company elected to issue and sell the Promissory Note to Yorkville on June 2, 2022.

Subject to the terms of the SEPA, the Company has the right to terminate the SEPA at any time, at no cost or penalty, upon five trading days' prior written notice so long as there are no outstanding Advances, no outstanding balance on the Promissory Note and no other amounts owed to Yorkville. No termination of the SEPA will affect the indemnification provisions contained within the SEPA, which provisions will survive any termination. As of June 30, 2022, no Advances had occurred.

**Convertible Promissory Note**

On June 2, 2022, the Company issued the Promissory Note to Yorkville, which was issued with a 2% original issue discount, for proceeds of \$14.7 million. The maturity date of the \$15.0 Promissory Note is November 25, 2022 and the Company is required to pay the outstanding principal balance in five monthly \$3.0 million payments commencing July 27, 2022. Upon reasonable advance notice, the Company may defer 50% of a monthly payment amount due on two such monthly payments to later dates to be mutually agreed by the Company and Yorkville. In July 2022, \$1.5 million of the \$3.0 million July monthly payment amount was deferred until the October 2022 monthly payment due date. The Promissory Note bears an interest rate of 4.0%. Upon the occurrence of an event of default, as defined, the applicable interest rate will be 15% until the Promissory Note is paid in full. Interest payments are due monthly in conjunction with scheduled principal payments. The Promissory Note may be repaid with the proceeds of an Advance or repaid in cash and, if repaid in cash, together with a cash payment premium of 6%, provided that if the Company's Common Stock market price, as defined, is less than \$2.25 per share, the cash payment premium will be 4%. If the Promissory Note is outstanding, the proceeds of an Advance will be applied to the outstanding amounts due, first to outstanding interest, under the Promissory Note, Yorkville has the right to convert any portion of the Promissory Note (a "Yorkville Conversion"), including accrued and unpaid interest into shares of Common Stock at a conversion price of \$3.75 per share of Common Stock (the "Conversion Price"). If the \$15.0 million principal balance of the Promissory Note was converted at the Conversion Price, the Company would issue 4,000,000 shares of Common Stock. The Conversion Price will be adjusted for certain dilutive events or fundamental Company transactions and events, including, but not limited to, mergers, consolidations, a change of control, sale of substantially all the assets of the Company and transactions where holders of the Common Stock are entitled to receive securities or other assets with respect to or in exchange for shares of Common Stock. In certain of these events, upon a Yorkville Conversion, Yorkville will be entitled to receive such benefits as if it were a Common Share holder at the time of the underlying event. Upon any Yorkville Conversion, the Company is required to deliver in a timely manner, as defined, the Common Shares issuable per the conversion. If the Company does not deliver the Common Shares in a timely manner, as defined, Yorkville may purchase such Common Shares (in an open market transaction or otherwise) and may seek a cash-based or cash and stock-based remedy from the Company.

The Company has the right to redeem early a portion or all amounts outstanding under the Promissory Note provided that (1) if the market price, as defined, of the Company's Common Stock is less than or equal to the Conversion Price, the Company will provide five trading days notice or (2) if the market price, as defined, of the Company's Common Stock is greater than the Conversion Price, (i) the Company will provide fifteen trading days notice and (ii) the Company may only exercise its early redemption right if Yorkville is able to exercise its rights under the SEPA. Upon receipt of a redemption notice, Yorkville will first have the right to exercise its conversion rights prior to the effectiveness of a Company redemption. The specified redemption amount will be reduced by any Yorkville Conversion amount.

The Company shall maintain the effectiveness of a registration statement pursuant to which Yorkville is permitted to utilize the prospectus thereunder to resell all of the Common Stock issuable pursuant to the conversion of the Promissory Note. The issuance and sale of the Common Stock by the Company under the Promissory Note, including shares issued upon a Yorkville Conversion, are made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement, including a final prospectus supplement dated June 10, 2022. The aggregate debt discount and debt issuance costs recorded for the Promissory Note is \$404,000, comprised of the original issue discount of \$300,000 and other debt issuance expenses of \$104,000, and is being accreted into the

## TERAWULF INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Promissory Note balance over the six-month term of the Promissory Note at an effective interest rate of 8.7%, which is in addition to the stated interest rate. For the six months ended June 30, 2022, the Company amortized \$97,000 of the capitalized debt issuance costs and debt discount and expensed \$46,000 of contractual interest to interest expense in the consolidated statement of operations. Capitalized debt issuance costs and debt discount of \$307,000 are recorded as a reduction of the Promissory Note balance in the consolidated balance sheets as of June 30, 2022.

#### NOTE 11 – JOINT VENTURE

On May 13, 2021, the Company and Talen Energy Corporation (“Talen”) (each a “Member” and collectively the “Members”) entered into a joint venture, Nautilus Cryptomine LLC (“Nautilus”), to develop, construct and operate up to 300 MW of zero-carbon bitcoin mining in Pennsylvania (the “Joint Venture”). In connection with the Joint Venture, Nautilus simultaneously entered into (i) a ground lease (the “Ground Lease”), which includes an electricity supply component, with a related party of Talen, (ii) a Facility Operations Agreement with a related party of the Company and (3) a Corporate Services Agreement with a related party of Talen. Each Member holds a 50% interest in the Joint Venture. Pursuant to the terms of the Joint Venture agreement, TeraWulf would contribute \$156.0 million both in cash and in-kind and Talen would contribute \$156.0 million both in cash and in-kind to Nautilus by March 2022, unless otherwise determined in accordance with the Joint Venture agreement. The aforementioned contributions are now expected to be contributed by the fourth quarter of 2022, as agreed to by the Members. The Company capitalizes a portion of the interest on funds borrowed to finance its investments in Nautilus prior to Nautilus commencing its principal operations. Capitalized interest costs were \$1.6 million and \$0 for the six months ended June 30, 2022 and period February 8, 2021 (date of inception) to June 30, 2021, respectively.

On March 19, 2021, TeraCub executed an agreement for the purchase of bitcoin miners from Minerva Semiconductor Corp. (“Minerva”) for a total of 30,000 MV7 miners, with originally scheduled monthly deliveries of miners each between November 2021 and January 2022, for an aggregate price of \$118.5 million (the “Minerva Purchase Agreement”). Pursuant to the Minerva Purchase Agreement, the Company paid an initial deposit of \$3.7 million. Concurrently with the execution of the Joint Venture agreement, TeraWulf assigned the Minerva Purchase Agreement to Nautilus. During the nine months ended December 31, 2021, the Company paid Minerva \$16.8 million and was reimbursed by Talen for 50% of that amount and also reimbursed by Talen an additional amount of \$11.9 million related to 50% of the initial deposit paid prior to March 31, 2021. The balance of payments under the Minerva Purchase Agreement were originally scheduled to be paid as follows: (i) 30% of the total price six months before the shipping date of each batch of bitcoin miners; (ii) 30% of the total price three months before the shipping date of each batch of bitcoin miners; and (iii) the remaining 20% of the total price one month before the shipping date of each batch of bitcoin miners. Production delays at Minerva’s factory have impacted the initial pricing and delivery schedule. Accordingly, Nautilus and Minerva have deemed all payments made to date to apply to the initial 10,000 miners to be shipped, which payments comprise 90% of the total amount due for these miners. As of the date at which these financial statements were available to be issued, Nautilus had not amended the Minerva Purchase Agreement.

On June 15, 2021, Nautilus entered into two Non-fixed Price Sales and Purchase Agreements for the purchase of bitcoin miners from Bitmain Technologies Limited (“Bitmain”) for a total of 30,000 S19j Pro miners, with originally scheduled monthly deliveries of 5,000 miners each between January 2022 and June 2022 (the “Bitmain Purchase Agreements”). During the six months ended June 30, 2022, the Company paid Bitmain \$22.8 million and was reimbursed by Talen for 50% of that amount. In 2021, the Company paid Bitmain approximately \$124.6 million under the Bitmain Purchase Agreements. On a net basis, the Company funded approximately \$76.9 million as Talen reimbursed the Company in 2021 approximately \$47.7 million in accordance with the Joint Venture agreement. The Company and Nautilus are engaged in discussions with Bitmain regarding the timing and volume of deliveries, current market price of miners and the timing of and need for remaining payments. As of the date at which these financial statements were available to be issued, Nautilus had not amended the Bitmain Purchase Agreements.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The Company's direct payments to Minerva and Bitmain, among others, on behalf of Nautilus for the six months ended June 30, 2022, are included in investments in joint venture related to direct payments made on behalf of joint venture in the consolidated statement of cash flows. A reconciliation of amounts included within this footnote to captions in the consolidated statement of cash flows for the six months ended June 30, 2022 follows (in thousands):

Nautilus is a VIE accounted for using the equity method of accounting. The table below summarizes the Company's interest in Nautilus and the Company's maximum exposure to loss as a result of its involvement with the VIE as of June 30, 2022 (in thousands, except for percentages):

| Entity   | %<br>Ownership | Initial<br>Investment | Additional<br>Investment | Net loss<br>Inception<br>to Date | Company's<br>Variable<br>Interest in<br>Entity | Commitment to<br>Future<br>Additional<br>Contributions<br>(1) | Company's<br>Maximum<br>Exposure to Loss<br>in Entity (2) |
|----------|----------------|-----------------------|--------------------------|----------------------------------|--|---|---|
| Nautilus | 50 %           | \$ 18,000             | \$ 125,483               | \$ 3,410                         | \$ 140,073                                     | \$ 14,131   | \$ 154,204  |

- (1) The Members may seek alternate financing for the Pennsylvania bitcoin mining facility, which could reduce the amount of investments each Member would be required to provide. The Members may mutually agree on changes to the Pennsylvania bitcoin mining facility, which could increase or decrease the amount of contributions each Member is required to provide.
- (2) The maximum exposure at June 30, 2022 is determined by adding the Company's variable interest in the entity and any explicit or implicit arrangements that could require the Company to provide additional financial support. The amount represents the contractually required capital contributions of the Company which are required for the initial phase of the Pennsylvania bitcoin mining facility buildout.

The condensed results of operations for the three and six months ended June 30, 2022 and the condensed financial position as of June 30, 2022 and December 31, 2021, of Nautilus are summarized below (in thousands):

In March 2022, the Company entered into an exchange agreement with Nautilus and the Nautilus co-venturer whereby the Company purchased 2,469 of Nautilus' Bitmain S19j Pro miners (the "Nautilus Miners") to be received under the Bitmain Purchase Agreements in exchange for an option to either (1) deliver miners that are not less favorable in all material respects to those of the Nautilus Miners (the "Exchange Miners") by July 1, 2022 or (2) incur a pro forma adjustment to Nautilus' distributions such that the Nautilus co-venturer is made whole as though the miners had not been transferred to the Company.

If the Exchange Miners are not delivered by September 30, 2022, the Nautilus co-venturer is entitled to elect to distribute in-kind a number of miners then in possession of Nautilus comparable to the then-undelivered Exchange Miners. During the three months ended June 30, 2022, the Nautilus Miners were received and recorded at fair value in the amount of \$16.0 million. As of June 30, 2022, \$16.0 million related to the Nautilus Miners is included in property, plant and equipment, net and in miner exchange liability in the consolidated balance sheet. As of the date these financial statements were available to be issued, the Exchange Miners had not been delivered.

**NOTE 12 – COMMITMENTS AND CONTINGENCIES****Litigation**

The Company is not a party to any material legal proceedings and is not aware of any pending or threatened claims. From time to time, the Company may be subject to various legal proceedings, regulatory inquiries and claims that arise in the ordinary course of its business activities.

**Bitmain Miner Purchase Agreements**

On December 7, 2021, the Company entered into a Non-fixed Price Sales and Purchase Agreement with Bitmain for the purchase of 3,000 S19XP miners, with originally scheduled monthly deliveries of 500 miners each between July 2022 and December 2022 (the "Second Bitmain Purchase Agreement") for a total purchase price of \$32.6 million. The Second Bitmain Purchase Agreement includes liquidated damage provisions that may be applied if payments are not made within sixty days of a payment due date, if not otherwise mutually extended. No liquidated damages have been applied as of the date these consolidated financial statements were available to be issued. For a batch of miners comprising a monthly shipment, if timely payments were made on installments then due, the Company holds an option to partially or wholly cancel that batch of miners and the remaining balance on that batch shall be refunded no later than two years after such cancellation. The Company is responsible for all logistics costs related to transportation for the delivery of miners. Pursuant to the Second Bitmain Purchase Agreement, the Company paid \$2.0 million during the six months ended June 30, 2022 and paid an initial deposit of approximately \$11.4 in 2021. The balance of payments due under the Second Bitmain Purchase Agreement are scheduled to be paid in unequal monthly installments through November 2022.

On December 15, 2021, the Company entered into a Non-fixed Price Sales and Purchase Agreement with Bitmain for the purchase of 15,000 S19XP miners, with originally scheduled monthly deliveries of 2,500 miners each between July 2022 and December 2022 (the "Third Bitmain Purchase Agreement") for a total purchase price of \$169.1 million. The Third Bitmain Purchase Agreement includes liquidated damage provisions that may be applied if payments are not made within sixty days of a payment due date, if not otherwise mutually extended. No liquidated damages have been applied as of the date these consolidated financial statements were available to be issued. For a batch of miners comprising a monthly shipment, if timely payments were made on installments then due, the Company holds an option to partially or wholly cancel that batch of miners and the remaining balance on that batch shall be refunded no later than two years after such cancellation. The Company is responsible for all logistics costs related to transportation for the delivery of miners. Pursuant to the Third Bitmain Purchase Agreement, the Company paid \$10.2 million during the six months ended

## TERAWULF INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2022 and paid an initial deposit of approximately \$59.2 million in 2021. The balance of payments due under the Third Bitmain Purchase Agreement are scheduled to be paid in unequal monthly installments through November 2022.

#### Other Commitments

In February 2022, the Company entered into an agreement with the Power Authority of the State of New York (“NYPA”) for the purchase of up to 90 MW of electric power over a term of ten years. This agreement includes certain Company site investment commitments including employment targets and capital investment targets. The allocation of 90 MW may be reduced by NYPA based on the Company’s actual electricity usage, as defined and periodically measured, if lower than the allocation or if the site investment commitments are not met.

#### NOTE 13 – CONVERTIBLE PREFERRED STOCK

In March 2022, TeraWulf entered into Series A Convertible Preferred Stock Subscription Agreements (the “Subscription Agreements”) with certain accredited and institutional investors (collectively, the “Holders”). Pursuant to the Subscription Agreements, the Company sold 9,566 shares (of 10,000 shares authorized) of Series A Convertible Preferred Stock, par value \$0.001 per share (the “Convertible Preferred Stock”) to the Purchasers for an aggregate purchase price of \$9.6 million. The Subscription Agreements contain customary representations, warranties, covenants and agreements of the Company. The offer and sale of the Convertible Preferred Stock were made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement.

Holders of the Convertible Preferred Stock will accumulate cumulative dividends at an annual rate of 10.0% on the stated amount per share plus the amount of any accrued and unpaid dividends on such share, accumulating on a daily basis and payable quarterly on March 31<sup>st</sup>, June 30<sup>th</sup>, September 30<sup>th</sup> and December 31<sup>st</sup>, respectively, in each year and commencing June 30, 2022. Commencing June 30, 2022, unpaid dividends will be accreted to, and increase, the liquidation preference of the Convertible Preferred Stock. The initial liquidation preference is \$1,000 per share. Holders of the Convertible Preferred Stock will also be entitled to such dividends paid to holders of the Company’s Common Stock, if applicable, as if such holders of the Convertible Preferred Stock had converted their Preferred Shares into Common Stock (without regard to any limitations on conversions) and had held such shares of the Company’s Common Stock on the record date for such dividends and distributions. If applicable, such payments will be made concurrently with the dividend or distribution to the holders of the Company’s Common Stock. Upon liquidation, the Convertible Preferred Stock will rank senior to the Company’s Common Stock, and will have the right to be paid, out of the assets of the Company legally available for distribution to its stockholders, an amount equal to the Liquidation Preference (as defined in the Company’s Series A Convertible Preferred Certificate of Designations) per share of the Convertible Preferred Stock. Holders of Convertible Preferred Stock will not generally have the right to vote at any meeting of stockholders, except for certain protective voting rights, as defined. The Convertible Preferred Stock does not have a maturity date.

The Holders of the Convertible Preferred Stock will have a right to effect an optional conversion of all or any whole number of shares of the Convertible Preferred Stock at any time and from time to time. The Company will have a right to effect a mandatory conversion of the Convertible Preferred Stock after the third anniversary of the issuance date if the Last Reported Sale Price (as defined in the Company’s Series A Convertible Preferred Certificate of Designations) per share of Common Stock exceeds 130% of the Conversion Price, as defined, on each of at least five (5) trading days (whether or not consecutive) during the fifteen consecutive trading days ending on, and including, the trading day immediately before the mandatory conversion notice date for such mandatory conversion. The number of shares of Common Stock issuable upon conversion will be equal to the liquidation preference, including accumulated and unpaid dividends, divided by the Conversion Price, as defined. The Conversion Price is determined by dividing \$1,000 by the Conversion Rate, as defined, which is initially 100 shares of Common Stock per \$1,000 liquidation preference of Convertible Preferred Stock. The Conversion Rate will be adjusted for certain customary events, including (but not limited to) stock dividends, stock splits or combinations, tender offers or exchange offers and, additionally, for Fundamental Changes, as defined, to include (but are not limited to) a change in control of the Company, disposition of substantially all assets of the Company, the Company’s Common Stock holders approve a plan of liquidation or dissolution or the Company’s Common Stock cease to be listed on the Nasdaq Capital Market. A Fundamental Change will adjust the Conversion Rate based on the date of the Fundamental Change and the Stock Price, as defined, on such date. The Conversion rate will not exceed 125 shares of Common Stock per \$1,000 liquidation preference of Convertible Preferred Stock. If any Convertible Preferred Stock is to be converted pursuant to a Holder’s optional conversion, the Company will have the option to settle such conversion in cash, as defined.

## TERAWULF INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

No dividends were paid during the six months ended June 30, 2022. Cumulative dividends of \$284,000 were accumulated and accreted to liquidation preference as of June 30, 2022. As of June 30, 2022, the aggregate liquidation preference of the Convertible Preferred Stock was approximately 9.9 million. If the entire liquidation preference of the Convertible Preferred Stock was converted at the Conversion Price, the Company would issue approximately 985,000 shares of Common Stock.

#### NOTE 14 – COMMON STOCK

TeraWulf's Certificate of Incorporation provides for authorized shares of 225,000,000, divided into (a) 200,000,000 shares of Common Stock, with par value of \$0.001 per share and (b) 25,000,000 shares of Preferred Stock, with par value of \$0.001 per share. Each holder of a share of Common Stock shall be entitled to one vote of each common share held. Each holder of a share of Preferred Stock shall not be entitled to any voting powers, except as provided in an applicable Certificate of Designations. The board of directors may authorize one or more series of Preferred Stock and may fix the number of shares in such series and the designation, powers, preferences, rights, qualifications, limitations and restrictions in respect of the shares of such series. One series of preferred stock, the Convertible Preferred Stock, was authorized as of June 30, 2022.

In February 2022, the Company entered into the At Market Issuance Sales Agreement (the "ATM Sales Agreement") with B. Riley Securities, Inc. and D.A. Davidson & Co. (collectively, the "Agents"), pursuant to which the Company may offer and sell, from time to time, through or to the Agents, acting as agent or principal, shares of the Company's Common Stock, par value \$0.001 per share, having an aggregate offering price of up to \$200.0 million (the "Shares"). Under the Sales Agreement, the Agents are entitled to 3% of gross proceeds from sales of Common Stock under the ATM Sales Agreement. The Company is not obligated to sell any Shares under the ATM Sales Agreement. Subject to the terms and conditions of the ATM Sales Agreement, the Agents will use commercially reasonable efforts, consistent with their normal trading and sales practices, to sell Shares from time to time based upon the Company's instructions, including any price, time or size limits or other customary parameters or conditions specified by the Company. The issuance and sale of the Shares by the Company under the ATM Sales Agreement are made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement, including a final prospectus supplement dated February 11, 2022.

In March 2022, the Company concluded a private placement of 271,447 of unregistered Common Stock for proceeds of \$2.1 million to an entity controlled by a member of Company management (the "Subscriber"). The Subscriber shall be entitled to customary registration rights as may be reasonably agreed between the Subscriber and the Company.

In April 2022, the Company entered into an underwriting agreement (the "Underwriting Agreement") with Cantor Fitzgerald & Co., as underwriter (the "Underwriter"), pursuant to which the Company issued and sold to the Underwriter an aggregate of 2,985,966 shares of the Company's Common Stock, par value \$0.001 per share (the "April Shares"), for gross proceeds of approximately \$0.6 million, before deducting underwriting discounts and commissions and offering expenses payable by the Company. The issuance and sale of the April Shares by the Company under the Underwriting Agreement are made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement, including a final prospectus supplement dated April 11, 2022.

In April 2022, the Company concluded a private placement of 634,517 of unregistered Common Stock for proceeds of \$5.0 million to an entity controlled by a member of Company management and to certain other significant stockholders.

In April 2022, the Company entered into a replacement sales agreement (the "April ATM Sales Agreement") with Cantor Fitzgerald & Co., B. Riley Securities, Inc. and D.A. Davidson & Co. (together the "April ATM Agents"), pursuant to which the Company may offer and sell, from time to time, through or to the April ATM Agents, shares of the Company's Common Stock, par value \$0.001 per share, having an aggregate offering price of up to \$200.0 million. The April ATM Sales Agreement replaced the ATM Sales Agreement. The Company is not obligated to sell any shares under the April ATM Sales Agreement. The Company will pay the April ATM Agents a commission equal to 3.0% of the gross sales price from each sale of shares. The issuance and sale of the April Shares by the Company under the April ATM Sales Agreement are made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement, including a final prospectus supplement dated April 26, 2022. During the six months ended June 30, 2022, under the ATM Sales Agreement and the April ATM Sales Agreement, the Company sold 1,101,016 shares of Common Stock for net proceeds of \$7.0 million.

**TERAWULF INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

No dividends were declared during the six months ended June 30, 2022 or the period February 8, 2021 (date of inception) to June 30, 2021.

**NOTE 15 – STOCK-BASED COMPENSATION**

On May 13, 2021, the Company made effective the 2021 Omnibus Incentive Plan (the “Plan”) for purpose of attracting and retaining employees, consultants and directors of the Company and its affiliates by providing each the opportunity to acquire an equity interest in the Company or other incentive compensation in order to align the interests of such individuals with those of the Company’s stockholders. The Plan provides for a maximum number of shares to be issued, limitations of shares to be delivered for incentive stock options and a maximum compensation amount for any non-employee member of the board of directors, among other provisions. The form of grants under the Plan includes stock options, stock appreciation rights, restricted stock and restricted stock units. No grants were made under the Plan as of December 31, 2021.

For the three and six months ended June 30, 2022, stock-based compensation expense was \$482,000 and \$0, respectively. The following table summarizes the activities for unvested Company restricted stock units (RSUs) granted to employees and Board of Directors members during the six months ended June 30, 2022:

|                                  | <b>Unvested Restricted Stock Units</b> |   |
|----------------------------------|--|---|
|                                  | <b>Number of Shares</b>                | <b>Weighted-Average Grant-Date Fair Value</b> |
| Unvested as of December 31, 2021 | —                                      | -   |
| Granted                          | 1,931,187                              | 2.87  |
| Vested                           | —                                      | -   |
| Forfeited/canceled               | —                                      | -   |
| Unvested as of June 30, 2022     | 1,931,187                              | 2.87  |

As of June 30, 2022, there was \$5.1 million of unrecognized compensation cost related to unvested employee and Board of Directors members RSUs. The amount is expected to be recognized over a weighted average period of 1.4 years. During the six months ended June 30, 2022, one RSU grant, with an initial fair value of \$90,000 and unrecognized compensation of \$88,000, was made to a consultant and remains outstanding as of June 30, 2022.

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 16 – RELATED PARTY TRANSACTIONS**

On April 27, 2021, the Company entered into an Administrative and Infrastructure Services Agreement (the “Services Agreement”) with Beowulf Electricity & Data Inc. (“Beowulf E&D”), a related party due to control by a member of Company management. Under the Services Agreement, Beowulf E&D will provide, or cause its affiliates to provide, to TeraWulf certain services necessary to build out and operate certain bitcoin mining facilities anticipated to be developed by the Company and support the Company’s ongoing business, including, among others, services related to construction, technical and engineering, operations and maintenance, procurement, information technology, finance and accounting, human resources, legal, risk management and external affairs consultation. The Services Agreement has an initial term of five years and provides for certain fixed, passthrough and incentive payments to Beowulf E&D, including issuing to certain designated employees of Beowulf E&D awards with respect to shares of TeraWulf Common Stock upon the consummation of an initial public offering of TeraWulf or the consummation of a merger following which TeraWulf is listed on a nationally recognized securities exchange and, thereafter, upon achievement of certain milestones regarding bitcoin mining capacity deployed at the bitcoin mining facilities. For the base fee, the Company has agreed to pay Beowulf E&D in monthly installments an annual fee for the first year in the amount of \$7.0 million and, thereafter, an annual fee equal to the greater of \$10.0 million or \$0.0037 per kilowatt hour of electric load utilized by the bitcoin mining facilities. The Services Agreement also provides for reimbursement of cost and expenses incurred in connection with providing the services. For the six months ended June 30, 2022, the Company paid Beowulf E&D \$8.3 million under the Services Agreement. Selling, general and administrative – related party in the consolidated statement of operations includes \$5.2 million for the six months ended June 30, 2022 related to the base fee and reimbursement of costs and expenses. As of June 30, 2022, \$833,000 is included in prepaid expenses and \$1.0 million is included in amounts due to related parties in the consolidated balance sheets. During the six months ended June 30, 2022, \$4.1 million was capitalized to property, plant and equipment, net in the consolidated balance sheet. As of December 31, 2021, \$583,000 is included in prepaid expenses, \$647,000 is included in amounts due from related parties and \$1.9 million is included in property, plant and equipment, net in the consolidated balance sheet.

The Services Agreement provides for performance related milestones and related incentive compensation. In connection with the listing of its Common Stock on a nationally recognized stock exchange in December 2021, pursuant to the Services Agreement, the Company agreed to issue awards valued at \$12.5 million with respect to shares of its Common Stock to certain designated employees of Beowulf E&D in accordance with TeraWulf’s then effective Plan. However, no awards have been issued as of the date these consolidated financial statements were available for issuance. As of June 30, 2022, \$12.5 million is included in share-based liabilities due to related party in the consolidated balance sheets. Once the mining facilities have utilized 100MW of cryptocurrency mining load in the aggregate, and for every incremental 100 MW of cryptocurrency mining load deployed by the mining facilities in the aggregate thereafter, TeraWulf agreed to issue additional awards of shares of TeraWulf Common Stock each in the amount of \$2.5 million to certain designated employees of Beowulf E&D in accordance with TeraWulf’s then effective Plan.

**NOTE 17 – SUBSEQUENT EVENTS**

The Company has evaluated subsequent events through August 15, 2022, which is also the date these consolidated financial statements were available to be issued, and has determined that the following subsequent events require disclosure.

In July 2022, the Company entered into an amendment to the LGSA. This amendment provides for an additional \$50.0 million term loan facility (the “New Term Facility”). The New Term Facility has a maturity date of December 1, 2024, consistent with the existing term loans under the LGSA. The interest rate with respect to the New Term Facility is consistent with the existing term loans under the LGSA, but is subject to increase upon the occurrence of certain conditions. Pursuant to the New Term Facility, funds can be drawn in three tranches. The \$15.0 million first tranche was drawn at closing in July 2022, and the subsequent tranches of up to \$35 million may be drawn at Company’s option, subject to certain conditions, including the raising of matching junior capital, as defined. The amortization with respect to the first tranche of the New Term Facility is consistent with existing term loans under the LGSA. The loans under the subsequent tranches of the New Term Facility are repayable in quarterly installments on (i) April 5, 2024 and July 8, 2024, equal to 12.50% of the original principal amount advanced under such tranches under the LGSA and (ii) October 7, 2024, equal to 37.5% of the original principal amount advanced under such tranches of the LGSA. The New Term Facility required the Company to extend the initial term of the Ground Lease from five years to eight years. In July 2022, the Ground Lease was extended and certain other provisions of the Ground Lease were amended. However, an agreement regarding the consideration for the Ground Lease amendment has not been finalized as of the date these financial statements were available to be issued. In connection with the New Term Facility, the Company issued warrants to the lenders under the New Term Facility to purchase 5,787,732 shares of Common Stock at \$0.01 per share, an aggregate number of shares of the Company’s Common Stock equal to 5.0% of the fully diluted equity of

**TERAWULF INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

the Company. If the Company draws subsequent tranches, it is required to issue warrants to the lenders to purchase shares of the Company's Common Stock equal to dilution of 3.75% and 4.25% of the then fully diluted equity of the Company, respectively. A certain portion of the warrants issued under the Warrant Agreement are subject to cancellation, upon the occurrence of certain conditions.

Subsequent to June 30, 2022 and through August 14, 2022, the Company sold, pursuant to the April ATM Sales Agreement, 1,574,403 shares of Common Stock for net proceeds of \$2.4 million.

## **ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with a review of the other Items included in this Quarterly Report on Form 10-Q, as well as our audited consolidated financial statements and related notes as disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021. All figures presented below represent results from continuing operations, unless otherwise specified. Capitalized terms used but not defined herein shall have the meanings ascribed to such terms in the Consolidated Financial Statements. Certain statements contained in this Management’s Discussion and Analysis of Financial Condition and Results of Operations may be deemed to be forward-looking statements. See “Forward-Looking Statements.”

### **General**

TeraWulf is a vertically-integrated owner and operator of environmentally clean bitcoin mining facilities in the United States. Founded and led by an experienced group of energy & power entrepreneurs, the Company is actively operating and constructing, consistent with its sustainable energy mandate, two bitcoin mining facilities, the Lake Mariner Facility and the Nautilus Cryptomine Facility, in the States of New York and Pennsylvania, respectively. TeraWulf will own and operate its bitcoin mining facility sites and expects to consume over 90% zero-carbon energy, with a target of achieving 100%. In connection with the planned buildout, TeraWulf entered into a power purchase agreement at the Nautilus Cryptomine Facility, and will receive power at approximately 2.0 cents/kWh. Moreover, the Lake Mariner Facility is located a mere 40 miles from the Robert Moses Niagara Power Plant, an approximate 2,600MW hydroelectric generating facility, the largest generating facility in New York State, and one of the largest in the country, with 24/7 access to low-cost carbon-free electricity. With the Nautilus Cryptomine Facility power purchase agreement, and the strategic location of the Lake Mariner Facility addition, TeraWulf expects to achieve an average long-term cost of electricity of approximately 3.0 cents/kWh, competitively positioning the Company to be a leading, low-cost and zero-carbon bitcoin mining operator in the United States.

**Lake Mariner Facility** — Located at a site adjacent to the decommissioned coal-fired Somerset Generating Station in Barker, New York, the Lake Mariner Facility has secured an initial 90 MW of energy to support its bitcoin mining capacity through an agreement with NYPA with the potential to expand into an additional 410 MW of energy supply. TeraWulf began mining bitcoin at the Lake Mariner Facility in March 2022.

**Nautilus Cryptomine Facility** — The Nautilus Cryptomine Facility is a joint venture between TeraWulf and Talen Energy Corporation (“Talen”). The Nautilus Cryptomine Facility, located in Salem Township, Luzerne County, Pennsylvania, is adjacent to the 2.5 GW nuclear-powered Susquehanna Station, 2.3 GW of which are owned and operated by Talen. The Nautilus Cryptomine Facility has secured as its power supply zero-carbon nuclear energy received directly from a substation connected to the Susquehanna Station’s electrical generators over a five-year term with two successive three-year renewal options. The Nautilus Cryptomine Facility is located “behind the meter” and not connected to the electrical distribution grid, therefore avoiding transmission and distribution charges typically paid by other large power consumers. At the time of this Quarterly Report, the Nautilus Cryptomine Facility has access to up to 300 MW of bitcoin mining capacity from the Susquehanna Station and is expected to be the first bitcoin mining facility site that is powered by 100% “behind the meter” zero-carbon nuclear energy. TeraWulf plans to begin installation of miners at the Nautilus Cryptomine Facility in the second half of 2022.

TeraWulf expects to generate revenues primarily by sustainably mining bitcoin at its bitcoin mining facility sites. Incremental revenues may be generated through the hedging and sale of mined bitcoin and the commercial optimization of TeraWulf’s power supply. The Company will also leverage its available digital infrastructure to provide miner hosting services to third parties whereby the Company holds an option to purchase the hosted miners in the future at a discounted purchase price.

We believe TeraWulf is an important and low-cost player in the Bitcoin network due to our vertical integration, planned large-scale operations, market-leading zero-carbon power supply arrangements and a seasoned, dedicated senior management team.

### **The Business Combination**

TeraWulf completed its business combination with IKONICS Corporation (“IKONICS”) on December 13, 2021 (the “Closing Date”) pursuant to which, among other things, TeraCub Inc. (“TeraCub,” formerly known as TeraWulf Inc.) would effectively acquire IKONICS and become a publicly traded company on the Nasdaq, which was the primary purpose of the business combination. For financial accounting purposes, the business combination was treated as a reverse merger whereby the accounting acquirer was TeraCub due to TeraCub’s historic shareholders having the majority voting control in the Company, the board of

directors members being associated with TeraCub and the senior management of TeraCub becoming the senior management of TeraWulf. Pursuant to business combination accounting, the Company applied the acquisition method, which requires the assets acquired and liabilities assumed be recorded at fair value, with limited exceptions. The Company's consolidated financial statements include the operating results of IKONICS beginning on the Closing Date.

Under the terms of the Merger Agreement, each share of IKONICS common stock issued and outstanding immediately prior to the Closing Date was automatically converted into and exchanged for (i) one validly issued, fully paid and nonassessable share of Common Stock of TeraWulf, (ii) one contractual contingent value right ("CVR") to a Contingent Value Rights Agreement ("CVR Agreement") and (iii) the right to receive \$5.00 in cash, without interest. TeraCub common stock issued and outstanding immediately prior to the Closing Date was automatically converted into the right to receive a number of validly issued, fully paid and nonassessable shares of TeraWulf such that the TeraCub common stockholders prior to conversion would effectively control 98% of the total outstanding shares of TeraWulf immediately subsequent to the Closing Date.

Pursuant to the CVR Agreement, each shareholder of IKONICS as of immediately prior to the Closing Date, received one CVR for each outstanding share of common stock of IKONICS then held. The holders of the CVRs are entitled to receive 95% of the Net Proceeds (as defined in the CVR Agreement), if any, from the sale, transfer, disposition, spin-off, or license of all or any part of the pre-merger business of IKONICS completed within 18 months following the date of the merger, subject to a reserve of up to 10% of the Gross Proceeds (as defined in the CVR Agreement) from such transaction and such other amount to be retained to satisfy Retained Liabilities, as defined. The CVRs do not confer to their holders any voting or equity or ownership interest in IKONICS or TeraWulf and are not transferable, except in limited circumstances, and are not listed on any quotation system or traded on any securities exchange. The CVR Agreement will terminate after all payment obligations to the holders thereof have been satisfied. Holders of CVRs will not be eligible to receive payment for dispositions, if any, of any part of the pre-merger business of IKONICS after the eighteen-month anniversary of the Closing Date. As of June 30, 2022, the CVR liability included in the Company's consolidated balance sheets is \$10.6 million. The fair value of the aggregate consideration paid for IKONICS was \$66.3 million, which includes (i) cash consideration of \$13.7 million (\$10.3 million net of cash acquired), (ii) equity consideration of \$40.6 million and contingent consideration (related to the CVRs) of \$12.0 million.

Upon the consummation of the business combination, IKONICS common stock ceased trading on the Nasdaq and TeraWulf Common Stock began trading on the Nasdaq on December 14, 2021 under the ticker symbol "WULF."

#### **COVID-19**

The Company's results of operations could be adversely affected by general conditions in the economy and in the global financial markets, including conditions that are outside of the Company's control, such as the outbreak and global spread of the novel coronavirus disease ("COVID-19"). The COVID-19 pandemic that was declared on March 11, 2020 has caused significant economic dislocation in the United States and globally as governments across the world, including the United States, introduced measures aimed at preventing the spread of COVID-19. The spread of COVID-19 and the imposition of related public health measures have resulted in, and are expected to continue to result in, increased volatility and uncertainty in the cryptocurrency space. Any severe or prolonged economic downturn, as a result of the COVID-19 pandemic or otherwise, could result in a variety of risks to the business and management cannot anticipate all the ways in which the current economic climate and financial market conditions could adversely impact its business.

The Company may experience disruptions to its business operations resulting from supply interruptions (including miner delivery interruptions), quarantines, self-isolations, or other movement and restrictions on the ability of its employees or its counterparties to perform their jobs and provide services. The Company may also experience delays in construction and obtaining necessary equipment in a timely fashion. To date, the Company has experienced certain, but minimal, delays due to COVID-19 complications among its employees, suppliers and contractors. If the Company is unable to effectively set up and service its miners, its ability to mine bitcoin will be adversely affected. The future impact of the COVID-19 pandemic is still highly uncertain and there is no assurance that the COVID-19 pandemic or any other pandemic, or other unfavorable global economic, business or political conditions, will not materially and adversely affect the Company's business, prospects, financial condition, and operating results.

#### **Change in Fiscal Year**

Upon the closing of its business combination with IKONICS, the Company assumed the fiscal year end of December 31. Previously, the Company's fiscal year ended on March 31.

## Results of Operations

Since the Company's inception on February 8, 2021, the Company's primary activities have been focused on capital acquisition, merger negotiation and consummation, joint venture negotiation and participation, miner procurement, electricity procurement, construction commencement and management, commencement of mining operations, public company readiness and general corporate activities. The Company's plan of operation for the next twelve months is to continue to develop its initial bitcoin mining facilities, both wholly owned and owned through the Nautilus Joint Venture.

### Continuing Operations

All items included in loss from continuing operations in the consolidated statements of operations for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021 relate to its wholly-owned operations of its sole business segment, digital currency mining, due to the Company presenting the newly acquired IKONICS business as held for sale and discontinued operations as of and for the six months ended June 30, 2022.

### Revenues

Revenue increased to \$1.4 million and \$1.6 million during the three months and six months ended June 30, 2022, respectively, as compared to \$0 during the three months ended June 30, 2021 and the period February 8, 2021 (date of inception) to June 30, 2021 due primarily to the commencement of mining activities at the Lake Mariner Facility in March 2022 and also to the commencement of a miner hosting arrangement at the Lake Mariner Facility in May 2022. During the six months ended June 30, 2022, revenue from mining was \$1.2 million and revenue from hosting was \$0.4 million.

### Costs and Expenses

The following table presents operating expenses (in thousands):

|                                    | Three Months Ended |        | Six Months Ended | Period February 8, 2021 (date of inception) to June 30, 2021 |
|------------------------------------|--------------------|--------|------------------|--|
|                                    | June 30,           |        |                  |  |
|                                    | 2022               | 2021   | June 30, 2022    | June 30, 2021  |
| Operating expenses                 | \$ 948             | \$ 93  | \$ 1,428         | \$ 93  |
| Operating expenses - related party | 147                | 22     | 209              | 875  |
|                                    | \$ 1,095           | \$ 115 | \$ 1,637         | \$ 968   |

Operating expenses (including related party expenses) increased \$980,000 from the three months ended June 30, 2021 to the three months ended June 30, 2022 and increased \$669,000 from the period February 8, 2021 (date of inception) to June 30, 2021 to the six months ended June 30, 2022. In each case, the increase is attributable to a two-month miner lease agreement that expired in May 2022. The increase related to the six month period ended June 30, 2022 is tempered by the period February 8, 2021 (date of inception) to June 30, 2021 including certain development expenses, including services and third-party costs for transmission consulting, engineering consulting, transmission impact study, electricity procurement and site development.

The following table presents selling, general and administrative expenses (in thousands):

|  | Three Months Ended |          | Six Months Ended | Period February 8, 2021 (date of inception) to June 30, 2021 |
|--|--------------------|----------|------------------|--|
|  | June 30,           |          |                  |  |
|  | 2022               | 2021     | June 30, 2022    | June 30, 2021  |
| Selling, general and administrative expenses                 | \$ 4,334           | \$ 2,538 | \$ 10,319        | \$ 2,784   |
| Selling, general and administrative expenses - related party | 2,423              | 1,614    | 5,239            | 2,191  |
|  | \$ 6,757           | \$ 4,152 | \$ 15,558        | \$ 4,975   |

Selling, general and administrative expenses (including related party expenses) increased \$2.6 million from the three months ended June 30, 2021 to the three months ended June 30, 2022 and increased \$10.6 million from the period February 8, 2021 (date of inception) to June 30, 2021 to the six months ended June 30, 2022. In each case, the increase is primarily a result of the scope of Company operations whereby the Company was a public company significantly engaged in an infrastructure buildout and commencement of mining activities during the six months ended June 30, 2022 as opposed to a newly formed private company with limited operations for the period February 8, 2021 (date of inception) to June 30, 2021. Selling, general and administrative expenses are comprised primarily of professional fees, legal fees, employee compensation and benefits, insurance and general corporate expenses. Professional fees include fixed and passthrough expenses under the administrative and infrastructure services agreement amounting to \$5.2 million for the six months ended June 30, 2022.

Interest expense for the three months and six months ended June 30, 2022 was \$4.1 million and \$9.5 million, respectively and for the three months ended June 30, 2021 and the period February 8, 2021 (date of inception) to June 30, 2021 was \$0. Interest expense relates primarily to the Company's term loan financing in the principal amount of \$123.5 million, which was closed on December 1, 2021 (the "Term Loan"). The Term Loan bears an interest rate of 11.5%, which interest payments are due quarterly in arrears. Of the \$4.1 and \$9.5 million million of interest expense reported in the consolidated statements of operations for the three and six months ended June, 2022, respectively, approximately \$1.9 million and \$4.4 million, respectively, of the interest expense relates to amortization of debt issuance costs and debt discount related to debt issuance costs, an upfront fee, and the fair value of equity issued to the Term Loan investors in conjunction with the Term Loan. During the three and six months ended June 30, 2022, the Company capitalized \$1.6 million and \$2.4 million, respectively, of interest costs to property, plant and equipment, net and \$1.1 million and \$1.6 million, respectively, of interest to equity in net assets of investee in the consolidated balance sheet as of June 30, 2022. Additionally, on June 2, 2022, the Company entered into a convertible promissory note (the "Promissory Note") with a principal balance of \$15.0 million. The Promissory Note bears an interest rate of 4.0%. Interest payments are due monthly in conjunction with scheduled principal payments. The Promissory Note may be repaid with the proceeds of an Advance or repaid in cash and, if repaid in cash, together with a cash payment premium of 6%, provided that if the Company's Common Stock market price, as defined, is less than \$2.25 per share, the cash payment premium will be 4%. Of the \$9.5 million million of interest expense reported in the statement of operations for the six months ended June 30, 2022, approximately \$0.1 million of the interest expense relates to amortization of debt issuance costs and debt discount related to an upfront fee.

*Equity in net loss of investee, net of tax*

Equity in net loss of investee, net of tax for the three and six months ended June 30, 2022 was \$1.1 million and \$1.9 million, respectively, and for the three months ended June 30, 2021 and the period February 8, 2021 (date of inception) to June 30, 2021 was \$0.1 million. In each case, these amounts represent TeraWulf's 50% share of losses of Nautilus, which had not commenced principal operations as of June 30, 2022.

*Loss from discontinued operations, net of tax*

Loss from discontinued operations, net of tax for the three and six months ended June 30, 2022 was \$0.6 million and \$3.5 million, respectively, and for the three months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021 was \$0. In conjunction with the IKONICS' business classification as held for sale upon acquisition on December 13, 2021, the Company has reported the IKONICS business as discontinued operations in the consolidated financial statements. For the three and six months ended June 30, 2022, the total loss from discontinued operations reported is comprised primarily of an impairment loss on discontinued operations of \$0.6 million and \$4.5 million, respectively, to write down the related carrying amounts of IKONICS to their fair values less estimated cost to sell, offset for the six months ended June 30, 2022 by a remeasurement gain of \$1.4 million on the CVRs, which represents the contingent consideration purchase price component of the IKONICS acquisition.

**Liquidity and Capital Resources**

As of June 30, 2022, the Company had cash and cash equivalents of \$0.9 million, working capital deficiency, including current assets and current liabilities held for sale, of \$76.0 million, total stockholders' equity of \$135.0 million and an accumulated deficit of \$127.8 million. The Company incurred a net loss of \$32.1 million for the six months ended June 30, 2022, including a net impairment charge (net of the CVR remeasurement gain) of \$3.1 million included in loss from discontinued operations, net of tax related to the acquired IKONICS business. The Company has commenced mining activities, however not yet to scale, and therefore has not generated material revenues from its mining business. The Company has relied on proceeds from its issuances of debt and equity to fund its principal operations. The principal uses of cash are for deposits on miners, the buildout of mining facilities, general

corporate activities and investments in Nautilus joint venture related to the miner deposits, mining facility buildout and general corporate activities. Cash flow information is as follows (in thousands):

|   | Six Months<br>Ended<br>June 30,<br>2022 | Period<br>February 8,<br>2021 (date of<br>inception) to<br>June 30,<br>2021 |
|---|---|---|
| Cash provided by (used in):                                 |   |   |
| Operating activities:                                       |   |   |
| Continuing operations                                       | \$ (29,721)                             | \$ (4,716)  |
| Discontinued operations                                     | (45)                                    | —   |
| Total operating activities                                  | (29,766)                                | (4,716)   |
| Investing activities  | (75,687)                                | (43,563)  |
| Financing activities  | 59,920                                  | 80,000  |
| Net change in cash and cash equivalents and restricted cash | <u>\$ (45,533)</u>                      | <u>\$ 31,721</u>  |

Cash used in operating activities for continuing operations was \$29.8 million and \$4.7 million for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. For the six months ended June 30, 2022, cash used in operations results from a net loss of \$31.9 million less non-cash expenses, net of \$9.9 million and adjusted for changes in certain asset and liability balances. The non-cash expenses were primarily comprised of (i) \$3.5 million of loss from discontinued operations, net of tax related to IKONICS' business, which is classified as held for sale as of June 30, 2022, (ii) \$1.9 million related to the Company's equity in net loss, net of tax of Nautilus, (iii) \$4.4 million related to amortization of debt issuance cost and accretion of debt discount, (iv) impairment of digital currency of \$0.6 million and (v) stock-based compensation of \$0.5 million. The changes in certain assets and liabilities were primarily comprised of a net decrease in current liabilities (which includes accounts payable, accrued construction liabilities, other accrued liabilities and other amounts due to related parties) of \$4.3 million, a net increase in current assets (which includes digital currency, prepaid expenses, amounts due from related parties and other current assets) of \$2.5 million and an increase in other assets of \$1.0 million.

Cash used in investing activities for continuing operations was \$75.7 million and \$43.6 for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. Deposits on miners comprised \$12.1 million and \$18.0 million (subsequently contributed to Nautilus and net of joint venture partner reimbursements) for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. For the six months ended June 30, 2022, the Company additionally invested (i) \$27.1 million in the buildout of mining facilities and (ii) \$36.4 million (including reimbursable payments made on behalf of the joint venture of joint venture partner offset by reimbursement from joint venture or joint venture partner of \$0.1 million net cash used) in Nautilus related primarily to the joint venture's miner deposits and mining facility buildout. The Company has significant future obligations related to miner deposits and also has commitments under the Talen Joint Venture Agreement. See "—Contractual Obligations and Other Commitments."

Cash provided by financing activities for continuing operations was \$60.0 million and \$80.0 for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. Proceeds from the issuance of Common Stock, net of issuance costs, were \$34.1 million and \$30.0 million for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, respectively. In addition, for the six months ended June 30, 2022 and the period February 8, 2021 (date of inception) to June 30, 2021, the Company issued shares of Series A Preferred stock (though a separate security in each period) for proceeds, net of issuance costs, of \$9.6 million \$50.0 million, respectively. For the six months ended June 30, 2022, the Company also received net proceeds of \$14.7 million from the issuance of a convertible promissory note and received proceeds, net of principal payments, of notes payable for insurance premium financing of \$1.6 million.

*Contractual Obligations and Other Commitments*

The Company has purchase obligations under miner purchase agreements and commitments under the Talen Joint Venture Agreement as of June 30, 2022, as follows (in thousands):

| Counterparty                 | Agreement Description       | Agreement Date    | Contractual Amount | Paid       | Remaining Contractual Amount |
|------------------------------|-----------------------------|-------------------|--------------------|------------|------------------------------|
| Bitmain Technologies Limited | Miner Purchase Agreement    | December 7, 2021  | \$ 32,550          | \$ 13,352  | \$ 19,198                    |
| Bitmain Technologies Limited | Miner Purchase Agreement    | December 15, 2021 | \$ 169,050         | \$ 69,335  | \$ 99,715                    |
| Nautilus Cryptomine LLC      | Joint Venture Agreement (1) | May 13, 2021      | \$ 156,000         | \$ 141,869 | \$ 14,131                    |

- (1) The contractual commitment amount represents the contractually required capital contributions of the Company which are required for the initial phase of the Nautilus Cryptomine Facility buildout. The joint venture members may seek alternate financing for the Nautilus Cryptomine Facility, which could reduce the amount of investments each member would be required to provide. The members may mutually agree on changes to the Nautilus Cryptomine Facility, which could increase or decrease the amount of contributions each joint venture member is required to provide.

The December Bitmain Agreements are for the purchase of an aggregate 18,000 S19 XP miners, to be delivered to the Lake Mariner Facility between July 2022 and December 2022. Pursuant to the December Bitmain Agreements, the Company paid aggregate initial deposits and installment payments of approximately \$82.7 million as of June 30, 2022. The Company anticipates receiving its initial batch of 3,000 S19 XP miners for the Lake Mariner Facility in August 2022. The timing and volume of any additional future deliveries and the application of amounts paid under the December Bitmain Agreements, including an applicable current miner market price, are subject to ongoing discussions with Bitmain Technologies Limited. The Company currently expects to monetize initial deposits and installment payments for miners at respective delivery miner pricing. The Company can make no assurances as to the outcome of these discussions.

Pursuant to the terms of the Talen Joint Venture Agreement, TeraWulf would contribute \$156.0 million both in cash and in-kind and Talen would contribute \$156.0 million both in cash and in-kind to Nautilus by March 2022, unless otherwise determined in accordance with the Talen Joint Venture Agreement or any amendments thereto. The aforementioned contributions were based on an initial development budget formed on assumptions and inputs available at the time the joint venture was formed and are subject to change. Accordingly, the parties intend to make contributions as agreed to by the members in response to project requirements and market conditions.

*Financial Condition; Need for Additional Capital*

There is limited historical financial information about the Company upon which to base an evaluation of its performance. The Company has commenced mining activities, however not yet to scale, and therefore has not generated material revenues from its mining business. The Company has relied on proceeds from its issuances of debt and equity to fund its principal operations. In accordance with its plan to develop its bitcoin mining facilities, during the six months ended June 30, 2022, the Company paid approximately \$12.1 million as deposits on miners, and has significant future obligations related to these miner purchase agreements. Also, during the six months ended June 30, 2022, the Company invested \$36.4 million, net in its joint venture and has additional commitments under its joint venture agreement. The Company will need additional capital in order to meet these obligations in accordance with the existing contractual terms and to fund the planned development of its bitcoin mining facilities. Until TeraWulf is able to generate positive cash flows from operations, TeraWulf expects to fund its business operations and infrastructure buildout through the issuance of debt or equity securities or through the provision miner hosting services. During the six months ended June 30, 2022 and as discussed below, the Company entered into an At Market Issuance Sales Agreement for sale of shares of Common Stock having an aggregate offering price of up to \$200.0 million (the "ATM Offering") and a Standby Equity Purchase Agreement for the sale of shares of Common Stock having an aggregate offering price of up to \$50.0 million (the "SEPA"). However, there can be no assurance that the ATM Offering, SEPA or any other financing will be successfully consummated on acceptable terms and volume, if at all, which may impact the timing or scale of TeraWulf's planned development. In the event TeraWulf is unable to raise additional capital, TeraWulf may seek alternative arrangements or potential partnerships in order to fund its planned development. In the opinion of management, while it expects to be successful in its fundraising efforts, these factors, which include elements of capital acquisition outside the control of the Company, raise substantial doubt about TeraWulf's ability to continue as a going concern through at least the next twelve months. The financial statements do not include any adjustments that might result from TeraWulf's possible inability to continue as a going concern.

**ATM Offering.** On February 11, 2022, in order to facilitate additional capital acquisition, the Company entered into an At Market Issuance Sales Agreement (the “Sales Agreement”) with B. Riley Securities, Inc. and D.A. Davidson & Co. (each, individually, an “Agent” and, collectively, the “Agents”), pursuant to which the Company may offer and sell, from time to time, through or to the agents, acting as agent or principal, shares of the Company’s Common Stock, par value \$0.001 per share, having an aggregate offering price of up to \$200.0 million (the “Shares”). The Company is not obligated to sell any Shares under the Sales Agreement. In April 2022, the Company entered into a replacement sales agreement (the “April ATM Sales Agreement”) with Cantor Fitzgerald & Co., B. Riley Securities, Inc. and D.A. Davidson & Co. (together the “April ATM Agents”), pursuant to which the Company may offer and sell, from time to time, through or to the April ATM Agents, shares of the Company’s Common Stock, par value \$0.001 per share, having an aggregate offering price of up to \$200.0 million. The April ATM Sales Agreement replaced the Sales Agreement. The Company is not obligated to sell any shares under the April ATM Sales Agreement. Subject to the terms and conditions of the April ATM Sales Agreement, the Agents will use commercially reasonable efforts, consistent with its normal trading and sales practices, to sell Shares from time to time based upon the Company’s instructions, including any price, time or size limits or other customary parameters or conditions specified by the Company. The Company will pay the Agents a commission equal to 3.0% of the gross sales price from each sale of Shares and provide the Agents with customary indemnification and contribution rights. The April ATM Sales Agreement may be terminated by the Agents or the Company at any time upon five (5) days’ notice to the other party. The issuance and sale of the April Shares by the Company under the April ATM Sales Agreement are made pursuant to the prospectus and prospectus supplement forming a part of the Company’s shelf registration statement on Form S-3 (Registration Statement No. 333-262226), which was declared effective on February 4, 2022 (“the 2022 Registration Statement”), including a final prospectus supplement dated April 26, 2022. The 2022 Registration Statement provides that the Company may offer and sell from time to time shares of its Common Stock, shares of its preferred stock, debt securities, depositary shares, warrants, rights, purchase contracts or units, or any combination thereof, in one or more offerings in amounts, at prices and on terms that it determines at the time of the offering, with an aggregate initial offering price of up to \$500.0 million (or its equivalent in foreign currencies, currency units or composite currencies). As of August 14, 2022, the Company sold 2,675,419 shares of Common Stock for net proceeds of approximately \$9.4 million under the ATM Offering.

**SEPA.** On June 2, 2022, in order to facilitate additional capital acquisition, the Company entered into the SEPA with YA II PN, Ltd. (“Yorkville”). Pursuant to the SEPA, the Company shall have the right, but not the obligation, to sell to Yorkville up to \$50.0 million of its shares of Common Stock, at the Company’s request any time during the commitment period commencing on June 2, 2022 and terminating on the earliest of (i) the first day of the month following the 36-month anniversary of the SEPA and (ii) the date on which Yorkville shall have made payment of any advances requested pursuant to the SEPA for shares of the Common Stock equal to the commitment amount of \$50.0 million. Each sale the Company requests under the SEPA (an “Advance”) may be for a number of shares of Common Stock with an aggregate value of the greater of (1) an amount equal to 30% of the daily value traded, as defined, of Common Stock on the trading day prior to the delivery of the Advance notice or (2) \$5.0 million. The Common Stock would be purchased at 97.0% of the Market Price, (as defined below) and would be subject to certain limitations, including that Yorkville could not purchase any Common Stock that would result in it owning more than 4.99% of the Company’s outstanding Common Stock at the time of an Advance (the “Ownership Limitation”) or an aggregate of 19.9% of the Company’s outstanding Common Stock as of the date of the SEPA (the “Exchange Cap”). The Exchange Cap will not apply under certain circumstances, including to any sales of common stock under the SEPA that equal or exceeds \$3.04 per share of Common Stock. “Market Price” is defined in the SEPA as the average of the daily volume weighted average price, as defined, during each of the three consecutive trading days commencing on the trading day following the Company’s submission of an Advance notice to Yorkville. The SEPA contains customary registration rights, representations, warranties, conditions and indemnification obligations by each party. Certain conditions precedent must be satisfied in order for the Company to deliver a notice of Advance. These conditions include, but are not limited to, the existence of an effective registrations statement pursuant to which Yorkville is permitted to utilize the prospectus thereunder to resell all of the Common Stock issuable pursuant to the Notice. The issuance and sale of the Common Stock by the Company under the SEPA are made pursuant to the prospectus and prospectus supplement forming a part of the 2022 Registration Statement, including a final prospectus supplement dated June 10, 2022. In addition to the Company’s right to request Advances, subject to certain conditions precedent, the Company had the option to, but was not obligated to, effect a pre-advance loan with a principal amount of \$15.0 million through the issuance and sale to Yorkville of a convertible promissory note (the “Promissory Note”). The Company elected to issue and sell the Promissory Note to Yorkville on June 2, 2022. As of June 30, 2022, no Advances had occurred.

**Long-term Debt Amendment.** In July 2022, the Company entered into an amendment to its Loan, Guaranty and Security Agreement (the “LGSA”). This amendment provides for an additional \$50.0 million term loan facility (the “New Term Facility”). The New Term Facility has a maturity date of December 1, 2024, consistent with the existing term loans under the LGSA. The interest rate with respect to the New Term Facility is consistent with the existing term loans under the LGSA, but is subject to increase upon the occurrence of certain conditions. Pursuant to the New Term Facility, funds can be drawn in three tranches. The \$15.0 million first tranche was drawn at closing in July 2022, and the subsequent tranches of up to \$35 million may be drawn at Company’s option, subject to certain conditions, including the raising of matching junior capital, as defined. The amortization with respect to the first

tranche of the New Term Facility is consistent with existing term loans under the LGSA. The loans under the subsequent tranches of the New Term Facility are repayable in quarterly installments on (i) April 5, 2024 and July 8, 2024, equal to 12.50% of the original principal amount advanced under such tranches under the LGSA and (ii) October 7, 2024, equal to 37.5% of the original principal amount advanced under such tranches of the LGSA. The New Term Facility required the Company to extend the initial term of the Ground Lease from five years to eight years. In July 2022, the Ground Lease was extended and certain other provisions of the Ground Lease were amended. However, an agreement regarding consideration for the Ground Lease amendment has not been finalized as of the date these financial statements were available to be issued. In connection with the New Term Facility, the Company issued warrants to the lenders under the New Term Facility to purchase 5,787,732 shares of Common Stock at \$0.01 per share, an aggregate number of shares of the Company's Common Stock equal to 5.0% of the fully diluted equity of the Company. If the Company draws subsequent tranches, it is required to issue warrants to the lenders to purchase shares of the Company's Common Stock equal to dilution of 3.75% and 4.25% of the then fully diluted equity of the Company, respectively. A certain portion of the Warrants issued under the Warrant Agreement are subject to cancellation, upon the occurrence of certain conditions.

### **Critical Accounting Policies and Estimates**

The above discussion and analysis of the Company's financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of the Company's consolidated financial statements requires the application of accounting policies and the use of estimates. The accounting policies most important to the preparation of the consolidated financial statements and estimates that require management's most difficult, subjective or complex judgments are described below.

#### *Variable Interest Entities*

Variable interest entities ("VIE") are legal entities in which equity investors do not have (i) sufficient equity at risk for the legal entity to finance its activities without additional subordinated financial support or (ii) as a group, the power, through voting or similar rights, to direct the activities of the legal entity that most significantly impact the entity's economic performance, or (iii) obligation to absorb the expected losses of the legal entity or the right to receive expected residual returns of the legal entity. The Company would consolidate any VIE in which it has a controlling financial interest through being deemed to be the primary beneficiary of the VIE. The primary beneficiary of a VIE has both of the following characteristics: (1) the power to direct the activities of the VIE that most significantly impact its economic performance; and (2) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could be significant to the VIE. If both characteristics are met, the Company considers itself to be the primary beneficiary and therefore will consolidate that VIE into its consolidated financial statements.

The Company determines whether it is the primary beneficiary of a VIE upon initial involvement with a VIE and reassesses whether it is the primary beneficiary of a VIE on an ongoing basis. The determination of whether an entity is a VIE and whether the Company is the primary beneficiary of a VIE is based upon facts and circumstances for the VIE and requires significant judgments such as whether the entity is a VIE, whether the Company's interest in a VIE is a variable interest, the determination of the activities that most significantly impact the economic performance of the entity, whether the Company controls those activities, and whether the Company has the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

The Company evaluated its investment in Nautilus under the VIE guidance, which requires management to exercise significant judgment. Due to the initial nature of the joint venture and the continued commitment for additional financing, the Company determined Nautilus is a VIE. While the Company has the ability to exercise significant influence over Nautilus, the Company has determined that it does not have the power to direct the activities that most significantly impact the economic performance of Nautilus. The power to direct the activities of Nautilus that most significantly impact Nautilus' economic performance are shared equally by both parties within the joint venture due to the requirement for both equity holders to approve many of the key operating decisions and when not equally shared, are predominantly under the control of the co-venturer, including through the co-venturer's majority representation on the board of managers. As such, the Company has determined that it is not the primary beneficiary of Nautilus and, therefore, has accounted for this entity under the equity method of accounting. Risks associated with the Company's involvement with Nautilus include a commitment to fund additional equity investments.

### *Mining pools*

The Company has entered into an arrangement with a cryptocurrency mining pool to provide computing power to the mining pool. The arrangement is terminable at any time by either party and our enforceable right to compensation only begins when the Company provides computing power to the mining pool operator. The mining pool applies the Full Pay Per Share (“FPPS”) model. Under the FPPS model, in exchange for providing computing power to the pool, the Company is entitled to compensation, calculated on a daily basis, at an amount that approximates the total bitcoin that could have been mined using the Company’s computing power, based upon the then current blockchain difficulty. Under this model, the Company is entitled to compensation regardless of whether the pool operator successfully records a block to the bitcoin blockchain. Fair value of the cryptocurrency award received is determined using the quoted price of the related cryptocurrency at the time of contract inception.

There is no significant financing component in these transactions. There may be, however, consideration payable to the customer in the form of a pool operator fee; this fee will be deducted from the proceeds the Company receives and will be recorded as contra-revenue, as it does not represent a payment for a distinct good or service.

Providing computing power in cryptocurrency transaction verification services is an output of the Company’s ordinary activities. The provision of providing such computing power is a performance obligation. The transaction consideration the Company receives is non-cash consideration and is all variable. Fair value of the cryptocurrency award received for cryptocurrency transaction verification services is determined using the quoted price of the related cryptocurrency at the time of receipt. There is no significant financing component in these transactions.

The Company provides miner hosting services to customers. Hosting revenue is recognized in accordance with ASC 606 over the period of service.

### *Cryptocurrencies*

Cryptocurrencies, including bitcoin, are included in current assets in the consolidated balance sheets. Cryptocurrencies purchased will be recorded at cost and cryptocurrencies awarded to the Company through mining activities will be accounted for in connection with the Company’s revenue recognition policy disclosed above.

Cryptocurrencies will be accounted for as intangible assets with indefinite useful lives. An intangible asset with an indefinite useful life is not amortized but assessed for impairment on a daily basis. Impairment exists when the carrying amount exceeds its fair value, which is measured using the quoted price of the cryptocurrency at the time its fair value is being measured. In testing for impairment, the Company has the option to first perform a qualitative assessment to determine whether it is more likely than not that an impairment exists. If it is determined that it is not more likely than not that an impairment exists, a quantitative impairment test is not necessary. If the Company concludes otherwise, the Company is required to perform a quantitative impairment test. To the extent an impairment loss is recognized, the loss establishes the new cost basis of the asset. Subsequent reversal of impairment losses is not permitted.

Purchases of cryptocurrencies, if any, made by the Company will be included within investing activities in the consolidated statements of cash flows, while cryptocurrencies awarded to the Company through its mining activities will be included within operating activities in the consolidated statements of cash flows. The sales of cryptocurrencies will be included within investing activities in the consolidated statements of cash flows and any realized gains or losses from such sales will be included in other income (expense) in the consolidated statements of operations.

### *Issuance of Debt with Common Stock*

On December 1, 2021, TeraCub entered into a the LGSA, which consists of a \$123.5 million term loan facility. In connection with the LGSA, the Company issued to the holders of the Term Loan 839,398 shares of Common Stock, which is a quantity of Common Stock representing 1.5% of the outstanding shares of the publicly registered shares of TeraWulf subsequent to the Closing. The allocation of proceeds between the debt instrument and any other components included in the debt issuance, including Common Stock, is generally based on the relative fair value allocation method. In applying the relative fair value allocation method, the determination of the fair value of the Common Stock issued and the fair value of the Term Loan independent of the Common Stock issued requires significant judgment. As a measure of sensitivity, a 10% change in the estimated fair value of the Term Loan component would result in a \$1.9 million change in the fair value allocated to each of the Term Loan and equity components.

### *Convertible Instruments*

The Company accounts for its convertible promissory note that features a conversion option in accordance with Financial Accounting Standards Board (“FASB”) ASC No. 815 “*Derivatives and Hedging Activities*” (“ASC No. 815”). ASC No. 815 requires companies to bifurcate conversion options from their host instruments and account for them as freestanding derivative financial instruments according to certain criteria. The criteria includes circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) a convertible promissory note that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable U.S. GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. The application of the guidance regarding embedded derivatives and the fair value determination of a bifurcated embedded derivative, if applicable, requires significant judgment.

### *Income Taxes*

The Company accounts for income taxes pursuant to the provision of Accounting Standards Codification (“ASC”) 740-10, “*Accounting for Income Taxes*” which requires, among other things, an asset and liability approach to calculating deferred income taxes. The asset and liability approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred tax asset will not be realized. The Company follows the provision of the ASC 740-10 related to Accounting for Uncertain Income Tax Positions. When tax returns are filed, it is more likely than not that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. In accordance with the guidance of ASC 740-10, the benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely that not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. The tax benefits recognized in the consolidated financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with the tax positions taken that exceeds the amount measured as described above should be reflected as a liability for uncertain tax benefits in the Company’s balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The most critical estimate for income taxes is the determination of whether to record a valuation allowance for any net deferred tax asset, including net loss carryforwards, whereby management must estimate whether it is more likely than not that the deferred tax asset would be realized.

### *Business Combinations*

The Company includes the results of operations of the businesses that it acquires as of the acquisition date. The Company allocates the purchase price of the acquisitions to the assets acquired and liabilities assumed based on their estimated fair values. The excess of the purchase price over the fair values of identifiable assets and liabilities is recorded as goodwill. Contingent consideration is included within the purchase price and is recognized at its fair value on the acquisition date. A liability resulting from contingent consideration is remeasured to fair value as of each reporting date until the contingency is resolved, and subsequent changes in fair value are recognized in earnings. Contingent consideration is recorded in current liabilities in the Company’s consolidated balance sheets. During the six months ended June 30, 2022, the Company recorded a \$1.4 million remeasurement gain on the CVR contingent consideration, which is recorded in loss from discontinued operations, net in the consolidated statement of operations.

While the Company uses its best estimates and assumptions to accurately apply preliminary values to assets acquired and liabilities assumed at the acquisition date as well as contingent consideration, where applicable, these estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, the Company records adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of the assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded in the consolidated statements of operations. Accounting for business combinations requires management to make significant estimates and assumptions, especially at the acquisition date, including estimates for intangible assets, contractual obligations assumed, pre-acquisition contingencies, and contingent consideration, where applicable. Although the Company believes the assumptions and estimates it has made have been reasonable and appropriate, they are based in part on historical experience and information obtained from management of the acquired companies and are inherently uncertain. Critical estimates in valuing certain of the intangible assets acquired include; future expected cash flows, estimated market

royalty rates, customer attrition rates, cost of developed technology and discount rates. Unanticipated events and circumstances may occur that may affect the accuracy or validity of such assumptions, estimates, or actual results. As a measure of sensitivity, at June 30, 2022 a change in estimated net fair value of acquired assets and assumed liabilities of IKONICS of 10% would result in a change of \$1.4 million to the impairment on held-for-sale classification included in loss from discontinued operations, net in the consolidated statement of operations for the six months ended June 30, 2022. During the six months ended June 30, 2022, the Company recorded a \$4.5 million impairment loss on the long-lived assets of IKONICS held for sale, which is recorded in loss from discontinued operations, net in the consolidated statement of operations.

Acquisition-related expenses are recognized separately from the business combination and are expensed as incurred.

*Held for Sale and Discontinued Operations Classification*

The Company classifies a business as held for sale in the period in which management commits to a plan to sell the business, the business is available for immediate sale in its present condition, an active program to complete the plan to sell the business is initiated, the sale of the business within one year is probable and the business is being marketed at a reasonable price in relation to its fair value. As a measure of sensitivity, the classification of the IKONICS business as held-for-sale resulted in a \$48.9 million impairment charge included in loss from discontinued operations, net in the consolidated statement of operations in 2021. If held-for-sale classification accounting had not been applied, the acquired goodwill would have been evaluated for impairment with an alternate potential impairment charge applied.

Newly acquired businesses that meet the held-for-sale classification criteria upon acquisition are reported as discontinued operations.

**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

As a smaller reporting company, we are not required to provide this information.

**ITEM 4. Controls and Procedures**

**Disclosure Controls and Procedures**

Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of such period, are effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act are:

- Recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms, and
- Accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control Over Financial Reporting**

There were no changes in the Company's internal control over financial reporting that occurred during the six months ended June 30, 2022 that have materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **ITEM 1. Legal Proceedings**

From time to time, TeraWulf may be involved in various legal and administrative proceedings, lawsuits and claims incidental to the conduct of its business. Some of these proceedings, lawsuits or claims may be material and involve highly complex issues that are subject to substantial uncertainties and could result in damages, fines, penalties, non-monetary sanctions or relief. TeraWulf recognizes provisions for claims or pending litigation when it determines that an unfavorable outcome is probable, and the amount of loss can be reasonably estimated. Due to the inherent uncertain nature of litigation, the ultimate outcome or actual cost of settlement may materially vary from estimates. TeraWulf was not subject to any material pending legal and administrative proceedings, lawsuits or claims during the period covered by this Quarterly Report. TeraWulf's business and operations are also subject to extensive regulation, which may result in regulatory proceedings against TeraWulf.

### **ITEM 1A. Risk Factors**

Our business faces many risks. Before deciding whether to invest in our Common Stock, in addition to the other information set forth in this quarterly report on Form 10-Q, you should carefully consider the risk factors discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021. If any of the risks or uncertainties described therein actually occurs, our business, financial condition, results of operations or cash flow could be materially and adversely affected. This could cause the trading price of our Common Stock to decline, resulting in a loss of all or part of your investment. The risks and uncertainties we have described are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business operations. Except as set forth below, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K.

*Increased economic and political instability, including as a result of inflationary pressures, rising interest rates and the conflict between Russia and Ukraine, may adversely affect our business, financial condition, and results of operations.*

Inflation can adversely affect us by increasing the costs of raw materials, labor, and other costs required to operate and grow our business. Higher levels of inflation may reduce our profitability if revenue from our operations is not enough to keep up with increases in our costs. Inflationary pressures have resulted in increases in the cost of certain raw materials and other supplies necessary for the operation of our datacenters, and such increases may continue to impact us in the future and expose us to risks associated with significant levels of cost inflation. If we are unable to increase our prices to offset the effects of inflation, our business, operating results, and financial condition could be materially and adversely affected.

In addition, in late February 2022, Russia launched a military attack on Ukraine. In response, many countries have imposed sanctions against Russian businesses and citizens. Although we do not have operations outside the United States, the potentially destabilizing effects of the Russia and Ukraine conflict, or potential for a larger conflict, could have other effects on our business.

### **ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

On April 11, 2022, (i) Lucky Liefern LLC, an entity owned and controlled by Paul B. Prager, bought 317,259 shares of our Common Stock at a price of \$7.88 per share for an aggregate offering price of approximately \$2.50 million, (ii) Bayshore Capital LLC, an entity owned and controlled by Bryan J. Pascual, bought 158,629 shares of our Common Stock at a price of \$7.88 per share for an aggregate offering price of approximately \$1.25 million and (iii) Revolve Capital LLC bought 158,629 shares of our Common Stock at a price of \$7.88 per share for an aggregate offering price of approximately \$1.25 million. The shares were issued in reliance on an exemption from registration under the Securities Act of 1933, as amended, pursuant to Section 4(a)(2) thereof.

### **ITEM 3. Defaults Upon Senior Securities.**

None.

### **ITEM 4. Mine Safety Disclosures.**

None.

**ITEM 5. Other Information.**

None.

**PART IV**

**ITEM 6. Exhibits, Financial Statement Schedules**

| <u>Exhibit Number</u> | <u>Description</u>  |
|-----------------------|---|

## TERAWULF INC.

## CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Paul B. Prager, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of TeraWulf Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - c. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**TERWULF INC.**

CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of TeraWulf Inc. (the "Company") on Form 10-Q for the quarterly period ended June 30, 2022 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Paul B. Prager, Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934;  
and
- The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
