#### 5 IKONICS CORPORATION

## NOTES TO FINANCIAL STATEMENTS

(Unaudited)

### 1. Notes to Financial Statements

The balance sheet of IKONICS Corporation (the "Company") as of June 30, 2003, and the related statements of operations for the three and six months ended June 30, 2003 and 2002, and cash flows for the six months ended June 30, 2003 and 2002, have been prepared without being audited.

In the opinion of management, these statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position of IKONICS Corporation as of June 30, 2003, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company's Form 10-KSB for the year ended December 31, 2002.

The results of operations for interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

#### 2. Inventory

The major components of inventory at June 30, 2003 and December 31, 2002 are as follows:

<tabl< th=""><th>Le&gt;</th></tabl<>	Le>
<capt< td=""><td>:ion&gt;</td></capt<>	:ion>

	Total Stockholders' Equity-June 30, 2003		\$ 6,052,822

#### </Table>

### 4. Earnings Per Common Share (EPS)

Basic EPS is calculated using net income divided by the weighted average of common shares outstanding during the quarter. Diluted EPS is similar to Basic except that the weighted average of common shares

6

outstanding is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares, such as options, had been issued.

Shares used in the calculation of diluted EPS are summarized below:

## <Table> <Caption>

	Three Mont	ths Ended
	Jun 30, 2003	June 30,
	<c></c>	<c></c>
Weighted average common shares outstanding	1,248,127	1,248,127
Dilutive effect of stock options	6,172	0
	4 054 000	4 040 405
Weighted average common and common equivalent shares outstanding	1,254,299	1,248,127 =======
	Weighted average common shares outstanding Dilutive effect of stock options Weighted average common and common equivalent shares outstanding	Jun 30, 2003 <c> Weighted average common shares outstanding Dilutive effect of stock options  5,172</c>

</Table>

<Table> <Caption>

_	Weighted average common and common equivalent shares outstanding	1,253,071	1,256,002
	Dilutive effect of stock options	4,945	0
	Weighted average common shares outstanding	1,248,127	1,256,002
<s></s>		<c></c>	<c></c>
2002		oun 30, 2003	ounc 30,
		Jun 30, 2003	June 30.

</Table>

Options to purchase 161,608 and 150,029 shares of common stock were outstanding during the quarter ended June 30, 2003 and 2002, respectively. The options to purchase were excluded from the computation of common stock equivalents because they were anti-dilutive for the quarter ended June 30, 2002.

#### 5. Employee Stock Plans

The Company has a stock-based compensation plan. The Company accounts for those plans under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. Accordingly, no stock-based employee compensation cost has been recognized, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share had compensation cost for all of the stock-based compensation plans been determined based on the grant date fair values of awards (the method described in FASB Statement No. 123, Accounting for Stock-Based Compensation):

<Table> <Caption>

<td>le&gt;</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td>	le>								

7

#### 6. Intangible Assets

Intangible assets consist primarily of patents, licenses and covenants not to compete arising from business combinations. Intangible assets are amortized on a straight-line basis over their estimated useful lives or terms of their agreement. Estimated amortization expense for each of the next five years is \$24,000 annually. In connection with license agreements, the Company has agreed to pay royalties ranging from 3% to 5% on the future sales of products subject to the agreements.

#### 7. New Accounting Standards

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" (FAS 149). FAS 149 amends and clarifies financial accounting and reporting for derivative instruments including certain derivative instruments embedded in other contracts and for hedging activities under FAS 133. FAS 149 is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The adoption of FAS 149 is not expected to have a material impact on our financial statements.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" (FAS 150). FAS 150 clarifies the accounting for certain financial instruments and characteristics of both liabilities and equity and requires that those instruments be classified as liabilities in statements of financial position. Previously, many of these financial instruments were classified as equity. FAS 150 is effective for all financial instruments entered into or modified after May 31, 2003 and is otherwise effective at the beginning of the first interim period after June 15, 2003. We do not expect the adoption of FAS 150 to have a material effect on our financial statements.

8

#### IKONICS CORPORATION

The information presented below in Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements within the meaning of the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are subject to risks and uncertainties, including those discussed under "Factors that May Affect Future Results" below, that could cause actual results to differ materially from those projected. Because actual results may differ, readers are cautioned not to place undue reliance on these forward-looking statements. Certain forward-looking statements are indicated by italics.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis focuses on those factors that had a material effect on the Company's financial results of operations during the second quarter of 2003, the six months ended June 30, 2003 and the same periods of 2002. It should be read in connection with the Company's unaudited financial statements and notes thereto included in this Form 10-QSB.

#### FACTORS THAT MAY AFFECT FUTURE RESULTS

Certain statements made in this Quarterly Report on Form 10-QSB, including those summarized below, are forward-looking statements within the meaning of the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended, that involve risks and uncertainties, and actual results may differ. Factors that could cause actual results to differ include those identified below.

- The Company's belief that the quality of its receivables is high and that strong internal controls are in place to maintain proper collections—This belief may be impacted by domestic economic conditions, by economic, political, regulatory or social conditions in foreign markets, or by the failure of the Company to properly implement or maintain internal controls.
- The Company's expectation that capital expenditures during the remainder of 2003 will be funded with cash generated from operating activities—This expectation may be affected by changes in the Company's anticipated capital expenditure requirements resulting from unforeseen required maintenance or repairs. The funding of planned or unforeseen expenditures may also be affected by changes in anticipated operating results resulting from decreased sales or increased operating expenses.
- The belief that the Company's current financial resources, cash generated from operations and the Company's capacity for debt and/or equity financing will be sufficient to fund current and anticipated business operations and capital expenditures. The belief that the Company's low debt levels and available line of credit make it unlikely that a decrease in product demand would impair the Company's ability to fund operations—Changes in anticipated operating results, credit availability, equity market conditions or the Company's debt levels may further enhance or inhibit the Company's ability to maintain or raise appropriate levels of cash.
- O The Company's belief that its vulnerability to foreign currency fluctuations and general economic conditions in foreign countries is not significant—This belief may be impacted by economic, political and social conditions in foreign markets and changes in regulatory and competitive conditions or a change in the amount or geographic focus of the Company's international sales.
- o The Company's plans to continue to invest in research and development efforts, expedite internal product development and invest in technological alliances, as well as the expected focus and results of such investments--These plans and expectations may

be impacted by general market conditions, unanticipated changes in expenses or sales, delays in the development of new products, technological

9

advances, the ability to find suitable and willing technology partners or other changes in competitive or market conditions.

- The Company's efforts to grow its international business--These efforts may be impacted by economic, political and social conditions in current and anticipated foreign markets, regulatory conditions in such markets, unanticipated changes in expenses or sales, changes in competitive conditions or other barriers to entry or expansion.
- The Company's belief as to future activities that may be undertaken to expand the Company's business--Actual activities undertaken may be impacted by general market conditions, competitive conditions in the Company's industry, unanticipated changes in the Company's financial position or the inability to identify attractive acquisition targets or other business opportunities.

#### CRITICAL ACCOUNTING POLICIES

The Company prepares the financial statements in conformity with accounting principles generally accepted in the United States of America. Therefore, the Company is required to make certain estimates, judgments and assumptions that the Company believes are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. The accounting policies, which IKONICS believes are the most critical to aid in fully understanding and evaluating its reported financial results, include the following:

Accounts Receivable. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received.

A trade receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 90 days. While credit losses have historically been within expectations and the provisions established, the Company cannot guarantee that it will continue to experience the same collection history that has occurred in the past. The general payment terms are net 30-45 days for domestic customers and net 60-90 days for foreign customers. The concentration of credit risk is not significant except for a receivable from one of the Company's larger customers, which accounted for 9.5% of total receivables as of June 30, 2003.

Inventory. Inventories are valued at the lower of cost or market value using the last in, first out (LIFO) method. The Company monitors its inventory for obsolescence and records reductions in cost when required.

Deferred Tax Assets. At June 30, 2003, the Company had approximately \$200,000 of net deferred tax assets. The deferred tax assets result primarily due to timing differences in intangible assets and property and equipment. The Company has recorded a \$50,000 valuation allowance to reserve for capital loss carryforwards that will more likely than not be realized. The Company has determined that it is more likely than not that the remaining deferred tax assets will be realized and that an additional valuation allowance for such assets is not currently required.

Revenue Recognition. The Company recognizes revenue on products when title passes, which is usually upon shipment. Freight billed to customers is included in sales. Shipping costs are included in cost of goods sold.

### RESULTS OF OPERATIONS

QUARTER ENDED JUNE 30, 2003 COMPARED TO QUARTER ENDED JUNE 30, 2002

Sales. The Company's sales during the second quarter of 2003 were \$3.16 million, which was essentially flat with the sales in the second quarter of 2002. Sales were higher domestically and in Europe offset by lower sales

to Asia. A container shipment previously scheduled for China in the second quarter is now scheduled to be shipped and will be recorded in the third quarter of 2003.

Cost of Goods Sold. Cost of goods sold during the second quarter of 2003 was \$1.69 million, or 53.4% of sales, compared to \$1.77 million, or 56.0% of sales, during the same period in 2002. The reduction in the cost of sales in the first quarter of 2003 as a percentage of sales reflects an improved product mix across all geographic areas and lower costs for some of the raw materials. The Company also ended sales to certain marginally profitable customers at the beginning of the year.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$1,050,000, or 33.2% of sales, in the second quarter of 2003, from \$1,015,000, or 32.1% of sales, for the same period in 2002. The second quarter of 2003 reflected higher sales and marketing expenses including costs to set up a training facility in Singapore and other trade show costs.

Loss on Investment. The Company wrote down the value of its investment in Apprise Technologies ("Apprise") by \$75,000 in the second quarter of 2003. The latest offering price for shares of Apprise was below the value carried on the Company's books.

Research and Development Expenses. Research and development expenses during the second quarter of 2003 were \$175,000, or 5.5% of sales, versus \$187,000, or 5.9% of sales, for the same period in 2002. The reduction was due to lower costs for production trials and patent-related legal fees.

Interest Income. Interest income for the second quarter of 2003 was \$3,000 compared to \$10,000 for the same period in 2002. Interest is earned primarily from government obligation revenue bonds of various municipalities and school districts in the State of Minnesota.

Income Taxes. Income taxes were \$19,000, or an effective rate of 12%, for the second quarter of 2003, versus income taxes of \$69,000, or an effective rate of 35%, for the first quarter of 2002. The lower effective tax rate during the second quarter of 2003 relates to an increase in tax benefits of the extraterritorial income exclusion on foreign sales in prior years.

SIX MONTHS ENDED JUNE 30, 2003 COMPARED TO THE SIX MONTHS ENDED JUNE 30, 2002

Sales. The Company's sales during the first six months of 2003 increased moderately to \$5.99 million, or less than 1.0%, from \$5.95 million in sales during the same period in 2002. Domestic sales and European sales were higher but were offset by lower sales to Asia. A container shipment to China scheduled for the second quarter of 2003 is now scheduled to be shipped and will be recorded in the third quarter of 2003.

Cost of Goods Sold. Cost of goods sold during the first half of 2003 was \$3.31 million, or 55.3% of sales, compared to \$3.39 million, or 57.1% of sales, during the same period in 2002. The reduction in the cost of sales in the first six months of 2003 as a percentage of sales reflects an improved product mix across all geographic areas and lower costs for some raw materials. The Company also ended sales to certain marginally profitable customers at the beginning of the year.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$2,054,000, or 35.5% of sales, in the first half of 2003, from \$1,966,000, or 33.1% of sales, for the same period in 2002. The first half of 2003 reflected higher sales and marketing expenses including costs to set up a training facility in Singapore, trade show costs and consulting. The Company also experienced higher public reporting costs related to new SEC regulations arising out of the Sarbanes-Oxley Act of 2002.

Loss on Investment. The Company wrote down the value of its investment in Apprise by \$75,000. The latest offering price for shares of Apprise was below the value carried on the Company's books.

11

Research and Development Expenses. Research and development expenses during the first half of 2003 were \$343,000, or 5.7% of sales, versus \$367,000, or 6.2% of sales, for the same period in 2002. The reduction was due to lower costs for production trials and patent-related legal fees.

Interest Income. Interest income was \$16,000 for the first half of 2003 compared to \$18,000 for the same period in 2002. Interest is earned primarily from government obligation revenue bonds of various municipalities and school

districts in the State of Minnesota.

Income Taxes. Income taxes were \$35,000, or an effective rate of 16%, for the first half of 2003 compared to \$83,000, or an effective rate of 35%, for the first half of 2002.

#### LIQUIDITY AND CAPITAL RESOURCES

The Company has financed its operations principally with funds generated from operations. These funds have been sufficient to cover the Company's normal operating expenditures, annual capital requirements, and research and development expenditures.

Cash and cash equivalents were \$822,000 and \$210,000 at June 30, 2003 and June 30, 2002, respectively. The Company generated \$557,000 in cash from operating activities during the three months ended June 30, 2003 and used \$263,000 in cash from operating activities during the same period in 2002. Cash provided by operating activities is primarily the result of adjusting net income for non-cash depreciation, amortization, loss on investment provision for doubtful accounts, and certain changes in working capital components.

During the first six months of 2003, trade receivables increased by \$180,000. The increase in receivables was driven by moderately higher sales and a temporary slowdown in domestic screen print customer payments due to economic conditions. The Company believes that the quality of its receivables is high and that strong internal controls are in place to maintain proper collections. The allowance for doubtful accounts was increased by \$50,000 during the period to reflect the increase in trade receivables and the aging of these accounts related to the economic condition of the screen printing industry. Inventory levels increased by \$152,000 reflecting increased stocks of AccuArt related products due to strong market acceptance. Accounts payable increased by \$288,000, reflecting timing of payments for inventory to suppliers.

The Company used \$119,000 and \$148,000, in cash for investing activities during the six months ended June 30, 2003 and June 30, 2002, respectively. During the first six months of 2003, the Company purchased \$92,000 in plant equipment upgrades to improve efficiency and reduce operating costs, additions to the Company's business software, improvements to the Company's trade show booths and construction costs on the leased training facility in Singapore. It also incurred \$27,000 in patent application costs that the Company records as an asset and amortizes upon successful completion of the application process. During the first six months of 2002, the Company purchased \$94,000 in capital equipment and business software. During the first half of 2002, the Company purchased, for \$50,000, a license for technology applicable to its abrasive etching business.

Plans for additional capital expenditures of \$100,000 during 2003 include ongoing manufacturing equipment upgrades, development equipment to modernize the capabilities and processes of the Company's research and development laboratory to improve measurement and quality control processes. Total 2003 planned expenditures are expected to be less than 2002 capital expenditures and are expected to be funded with cash generated from operating activities.

During the first quarter of 2002, the Company repurchased 23,500 shares of its outstanding Common Stock for \$72,000.

A bank line of credit exists providing for borrowings of up to \$1,250,000. Outstanding debt under this line of credit is collateralized by accounts receivable and inventory and bears interest at 2.25 percentage points over the 30-day LIBOR rate. The Company did not utilize this line of credit during the quarter ended June 30, 2003 and there was no debt outstanding under this line as of June 30, 2003. The Company made a \$150,000 draw on this line of credit on June 20, 2002, primarily to cover a royalty payment to Aicello. The Company repaid this draw within a short period of time, utilizing cash from operations.

12

The Company believes that current financial resources, its line of credit, cash generated from operations and the Company's capacity for debt and/or equity financing will be sufficient to fund current and anticipated business operations. The Company also believes that its low debt levels and available line of credit make it unlikely that a decrease in demand for the Company's products would impair the Company's ability to fund operations.

## INTERNATIONAL ACTIVITY

The Company markets its products to over 60 countries in North America, Europe, Latin America, Asia and other parts of the world. Foreign sales were approximately 30% of total sales for the three months ended June 30, 2003 and 31% of total sales for the three months ended June 30, 2002. Sales to foreign markets were 30% for the six months ended June 30, 2003 and 32% for the same

period in 2002. Foreign sales in 2002 reflected higher sales to India and China. Fluctuations of certain foreign currencies have not significantly impacted the Company's operations because the Company's foreign sales are not concentrated in any one region of the world and are made primarily in dollars and Eurodollars. The Company believes its vulnerability to uncertainties due to foreign currency fluctuations and general economic conditions in foreign countries is not significant.

Substantially all of the Company's foreign transactions are negotiated, invoiced and paid in U.S. dollars or Eurodollars. IKONICS has not implemented a hedging strategy to reduce the risk of foreign currency translation exposures, which management does not believe to be significant based on the scope and geographic diversity of the Company's foreign operations as of June 30, 2003.

#### FUTURE OUTLOOK

IKONICS has invested over 6% of its sales dollars for the past several years in research and development. The Company plans to maintain its efforts in this area and expedite internal product development as well as form technological alliances with outside experts to ensure commercialization of new product opportunities.

In addition to its traditional emphasis on domestic markets, the Company will continue efforts to grow its business internationally by attempting to develop new markets and expanding market share where it has already established a presence. In June, the Company opened a training center in Singapore.

Other future activities undertaken to expand the Company's business may include acquisitions, building expansion and additions, equipment additions, new product development and pursuit of marketing opportunities.

#### ITEM 3. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. However, the Company has found that certain internal control procedures were not being performed in a timely manner. When these deficiencies were discovered by supervising personnel, corrective actions were taken by the Company.

## 13 PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 2. CHANGES IN SECURITIES

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company's Annual Meeting was held April 24, 2003. The shareholders took the following action:

The shareholders elected six directors to hold office until the next annual meeting of shareholders. The shareholders present in person or by proxy cast the following numbers of votes in connection with the election of directors, resulting in the election of all nominees:

<Table> <Caption>

#### CERTIFICATIONS

- I, William C. Ulland, certify that:
- 1. I have reviewed this quarterly report on Form 10-Q of IKONICS Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and I have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
  - b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - c) disclosed in this report any change in the registrant's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the registrant's most recent

fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

- 5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
